MEDICAL DEPARTMENT.

No. 16.—In supersession of the rules contained in Military Department Notification No. 891 of 1905, the following regulations for the grant of study leave to officers of the Indian Medical Service are published for information:—

1. Extra furlough for the purpose of study may be granted to officers of the Indian Medical Service on the recommendation of the Director-General, Indian Medical Service.
2. The period of such study leave will be calculated at the rate of one month for each year of service, up to a total of 12 months in all, during an officer's service.
3. Study leave may be taken at any time, but will not be granted more than twice in the course of an officer's service.
4. The minimum period of study which will render an officer eligible for study leave shall be two months.
5. The minimum period of leave granted solely as study leave shall be six months. Time spent on the journey to and from India by an officer whose study leave is not combined with any other kind of leave will reckon as study leave, but the allowance specified in Rule 10 will be granted during the period of study only.
6. Study leave can be combined with any other kind of leave, provided the period occupied in study is not less than two months and, in the case of leave on medical certificate, provided that the Medical Board at the India Office certifies that the officer is fit for study. In the case, however, of officers in military employment study leave cannot be taken in continuation of the combined privilege leave and furlough admissible under the terms of India Army Order No. 64 of 1904, if the total period would thereby exceed eight months, but study leave may be so taken provided such leave is for not less than two months and the total period of combined privilege leave, furlough and study leave does not exceed eight months; this limitation to eight months does not, however, apply in the case of study leave combined with privilege leave alone. The total period of absence from India, in the case of officers under the Leave Rules of 1886 for the Indian Army, will be strictly limited to two years.
7. Except as provided for in Rule 8, all applications for study leave shall be submitted, with the audit officer's certificate, to the Director-General, Indian Medical Service, through the prescribed channel, and the course or courses of study contemplated and any examination the candidate proposes to undergo shall be clearly specified therein.
8. Officers on furlough who wish to have part of their furlough converted into study leave should address the Under-Secretary of State, India Office, and should furnish a statement showing how it is proposed to spend the study leave.

9. An officer who is at home on combined leave may be permitted to commence a course of study before the end of his privilege leave, and to count the period so spent as part of his study leave without forfeiting his privilege leave allowances during such period.

10. During the course of study lodging allowance at the rate of 8s. a day for a field officer, 6s. for a Captain and 4s. for a Lieutenant will be granted. It is to be understood that, in order to qualify for the grant of study leave or for the receipt of lodging allowance, a definite course of study at a recognised institution, which will occupy the time of the officer for five or six days a week, must be pursued. This allowance will not be admissible to an officer who retires from the service without returning to duty in India after a period of study leave.

11. An officer in civil employ will be entitled to draw furlough pay at civil rates for a portion of his study leave equal to one-twelfth of his service under civil rules, and for the remainder either (1) at the military rate, or (2) if furlough is due to him under civil rules, at the rate admissible under those rules; in the latter case a corresponding portion of the ordinary furlough earned under civil rules which is at his credit will be treated as if it had been earned under military rules.

12. On completion of study the certificates of examinations passed, or the certificates of special study, which must show the dates of commencement and termination of the course, with any remarks by the instructor, shall be forwarded to the Under-Secretary of State, India Office, who will arrange for the transmission of the documents to the Director-General, Indian Medical Service. Officers may also be called upon to report themselves in person to the President of the Medical Board, India Office, on the conclusion of their course of study.

13. Study leave will count as service for promotion and pension, but, except so far as it may be taken during privilege leave (see Rule 9), it will not count for furlough or any other leave. It will not affect any leave which may already be due to an officer, and will not be taken into account in reckoning the aggregate amount of furlough taken by an Officer towards the maximum period of six years admissible under article 299 of the Civil Service Regulations.

SEPARATE REVENUE.

EXCISE.

Simla, the 18th April 1907.

Resolution No. 7057-Exo., dated the 18th December 1906.

Ordered, that the foregoing Resolution be published for general information in the Supplement to the *Gazette of India*.

J. S. MESTON,

Secy. to the Govt. of India.

No. 7057-Exo., dated Calcutta, the 18th December 1906.

RESOLUTION—By the Government of India, Finance Department.

THE Government of India propose to deal separately with the various portions of the Report of the Excise Committee appointed by their Resolution No. 5001-Exo., dated the 7th September 1906, and simultaneously with the connected parts of the Report by Major C. H. Bedford, I.M.S., on the "quality, manufacture and Excise control of alcoholic liquors in India," which have been already communicated to the various Local Governments and Administrations. The present Resolution is concerned with the matters dealt with in Chapters II and IX of the former report, namely, arrangements or concessions outside the scope of the ordinary Excise systems and country beers.

2. The concessions outside the scope of Excise systems are classified by the Excise Committee under two heads, *viz.*, (a) personal privileges, and (b) concessions to backward tribes. As stated in paragraph 8 of the Committee's Report, personal Excise privileges are at present allowed only in three provinces (the United Provinces, the Central Provinces and Ajmer-Merwara), and in the first two of these they will shortly disappear. As regards Ajmer-Merwara, the Committee express the opinion that the concession of the free distillation of spirits for personal consumption which is allowed to the *tasimi istimrardars* here leads to the demoralisation of the younger men of the privileged families, and they accordingly recommend that it should cease with the lives of the present holders. This suggestion commends itself to the Government of India.

3. The concessions to backward tribes are enumerated in paragraph 9 of the Committee's report. They relate mainly to the free brewing of country beers, while in respect of spirits and *tari* they are comparatively insignificant. The Committee have found (paragraph 11 of the Report) that drunkenness in many of the privileged areas is "undoubtedly prevalent to a lamentable extent, and is, generally speaking, limited by the opportunities and habits of the aborigines to the season when there is abundance of *tari* or *mahua* for distillation or of rice or other grain for the making of beer." Their general recommendation in regard to the continuance of these concessions is (paragraphs 11, 13 and 16 of the Report) that while the progressive restriction of the areas of privilege, and the gradual introduction of control with a view to the diminution of intemperance, should be kept steadily in view by the local Governments concerned, no attempt should

be made to introduce a regular Excise system in places where the Government have not the means of exercising complete control over the operations of the liquor seller. The Government of India entirely concur in this view.

4. The Committee (paragraphs 12 and 14 of the Report) are not agreed as to the desirability of imposing nominal fees for the exercise of the privileges above referred to, a policy which has been defended as a first step towards regular control and criticised as giving trouble to the people without affording any real check on consumption. They hold, however, that if such fees are maintained they should be made more uniform and the method of collection put under better control, especially in Bengal. While the Government of India are inclined to favour the retention of such fees, they propose to leave the matter to the discretion of the Local Governments concerned.

5. In paragraph 15 of the Report the Committee refer to the difficulties which are entailed by the enforcement of a limit of individual possession of liquor in the privileged tracts such as has been prescribed in Bengal and in Eastern Bengal and Assam. They find that such restrictions have been of use in the direction of diminishing illicit sales and excessive private possession, but have sometimes been used as a means of extortion by Excise subordinates. As they point out, this policy of restriction on possession should only be undertaken when the establishment which has to work it can be effectively supervised and controlled.

6. As regards particular provinces, the Committee's suggestions (paragraphs 13 and 14 of the Report) are as follows :—

- (1) In *Bengal* the suppression of home-brewing of *pachwai* should begin with the withdrawal of the privilege from the isolated aboriginal settlements in which a system of house-tax is now in force and should be gradually extended to other areas as the country is opened up and regular administration established. The varying fees levied for the privilege in question in certain districts should be made more uniform and the method of collection put under better control.
- (2) Similar steps in regard to the suppression of home-brewing should be taken in *Eastern Bengal*, while in *Assam* the Local Government is already taking steps towards the withdrawal of the right of free distillation of spirits in the Khasi and Jaintia Hills.
- (3) In the *Punjab*, wherever the privilege of home-brewing is granted subject to the payment of a nominal fee, arrangements should be made for the grant of licenses with as little trouble to the people as possible.
- (4) In *Madras*—(a) Certain areas within the privileged tracts, especially along the banks of the Godavari and Sabari rivers, should at once be brought under more regular Excise administration, and a similar policy should be applied in the near future to the country to be opened up by the Vizianagram-Raipur Railway.
(b) The whole of the privileged tracts should be brought under the Madras Abkari Act, 1886, and the Commissioner of Abkari should be empowered to advise and investigate in regard to Excise matters in these tracts. This should not, however, involve any obtrusive interference with the authority of the Agents to the Governor or the introduction of special Excise establishments.
(c) The poll tax levied from the Koyas and Reddis of the Godavari district for the privilege of free distillation of spirits should be abolished along with the privilege itself.
- (5) In *Bombay* the question of introducing a light tree-tax in the Panch Mahals district (which is already under the consideration of the local authorities) should be pursued, and as the condition of the *kuliparaj* (backward aboriginal races) improves, the specially low rates of tree-tax which are at present levied on trees tapped by them for *tari* should be gradually increased.
- (6) In the *Central Provinces* the existing prohibition against the location of shops in or near what is known as the Baiga reserve, which the local authorities desire to withdraw, should be maintained unless it can be shown that, in the absence of licensed shops, unlicensed sales are responsible for a large amount of drunkenness, and that the licensed shops which it is proposed to open can be properly controlled.

These conclusions and recommendations have the approval of the Government of India.

7. As regards country beers, which are discussed in Chapter IX of the Committee's Report, Major Bedford has, as the result of his enquiries, arrived at the following conclusions :—

- (1) The liquors in question have, generally speaking, a lower alcoholic strength than spirits, but are consumed in larger quantity, the net results being that about the same amount of absolute alcohol is consumed by the drinker of either class of liquor.
- (2) At the same time, in consequence of the fact that in drinking spirits the toxic amount of alcohol is more quickly reached and more easily exceeded than in the case of fermented liquors, the former may be regarded as more noxious than the latter.
- (3) The noxious effect of bye-products is in either case negligible.
- (4) In nutritive value country beers, though inferior to toddy, are, generally speaking, superior to beers manufactured after European processes in and out of India.
- (5) The yeast from which country beers are manufactured is generally weak and is not infrequently drugged with poisonous alkaloids, such as aconite, *scilla*, *emica*, *datura*, etc. (The yeasts actually examined by Major Bedford were, however, not found to contain any poisonous ingredients.)

8. The views of the Excise Committee on the question of the improvement of the Excise system in respect of country beers in areas outside the privileged tracts are stated in paragraphs 175—181 of their Report. As they explain, the policy hitherto adopted has been to favour the consumption of country beers on the ground that they are a wholesome and moderate form of stimulant, the result being that the number of licenses granted for the sale and home-brewing of these beers and the revenue derived therefrom have steadily increased. After summarising and discussing the objections to the continuance of this policy, the Committee express the opinion that "while there may be grounds, hygienic or other, for the favourable treatment of these liquors among the hill tribes in Assam and elsewhere, there are, generally speaking, none entitling them to be treated differently from other alcoholic liquors; that, in the matter of inducing drunkenness, they are entitled to consideration on the ground of their low strength but on no other; that the present method of sale tends to be both a public nuisance and a public danger; and that a much greater measure of control than is at present exercised is necessary if they are not to be a serious impediment to progress in Excise reform in the districts in which their consumption is most common."

9. Apart from the proposals for the restriction of the privileges of home-brewing referred to above, the Committee recommend the application of the following further measures of reform—primarily to the Burdwan, Birbhum, Bankura and Murshidabad districts of Bengal (where the consumption of the liquors in question is most general), and secondarily to other areas in so far as circumstances may admit of their application there:—

- (1) As the restriction of home-brewing proceeds, the policy of supplying the legitimate demand for the liquors in question by licensed shops should continue, but the sites for the shops should be selected judiciously, care being taken on the one hand that no undue temptation is put in the way of aboriginal tribes and, on the other that they are not driven to the use of country spirits.
- (2) Taxation should for the present be realised by the existing system of simple auctions.
- (3) The question of imposing a minimum price should be considered.
- (4) Licenses should be granted for a term of years and the licensees' liability in the matter of providing better and more sanitary premises, good wells, and proper utensils should be strictly enforced.
- (5) The possession on licensed premises of *nux vomica*, *dhatūra* or other similar poisons should be made punishable, and licensees should be required to submit periodically for chemical analysis samples of liquors as actually sold by them.
- (6) Local enquiries should be made as to the possibility of introducing a system of licensing the manufacture of *bakhar*, and a scientific investigation should be set on foot with a view to determining the proper ingredients of the stuff. The Committee prefer this latter proposal to Major Bedford's suggestion (page 202 of his Report) for the official issue of yeast.
- (7) Lastly, responsible officers should be employed to control the shopkeeper's operations to see that good rice and clean water are used, and to check the occurrence of drunkenness.

10. The Government of India accept the Committee's suggestions subject to the following remarks: (a) Licenses for the manufacture and vend of *pachwai* and other similar liquors should be auctioned for a longer period than one year, so as to give the licensees larger interest in maintaining proper premises and appliances. Such licenses should not, however, be granted for a term exceeding three years, inasmuch as it is undesirable to allow the growth of anything of the nature of vested interest in Excise shops.

(b) If the fifth proposal in paragraph 9 above means that special penal legislation should be undertaken to deal with the possession in licensed vend premises of poisonous materials, such as *dhatūra*, the Government of India are entirely averse to such a course. They consider that action with regard to the possession of materials of this description *qua* poisons should be taken under the Indian Penal Code or the Poisonous Act, and not as a matter of Excise law. Their possession by Excise licensees ought, however, to be made a ground for the cancellation of a license.

(c) The Government of India are altogether opposed to Major Bedford's suggestions that Government should make and supply yeast to liquor manufacturers. The local enquiries suggested by the Committee as to the possibility of introducing a system of licensing the manufacture of *bakhar* should, however, be instituted. Meanwhile Major Bedford will be asked to undertake a scientific investigation with a view to determining its proper ingredients.

(d) The action proposed in paragraph 9 (7) should be taken by the regular Excise staff of the Province and not by a special agency appointed for the purpose.

(e) The Government of India would not object, where this may be deemed necessary, to shops being provided with good wells at Government expense.

11. They would further suggest, for the consideration of other Local Governments, the desirability of enforcing the responsibility of a licensee for the sobriety of his customers by a provision, similar to that already in force in Assam, that, in cases where drunkenness amounting to a public nuisance occurs in the vicinity of a shop, the shopkeeper will be liable to have his license cancelled and to forfeit his earnest money. Care must, however, be

taken that this measure, if adopted, is not used as a means of blackmail by departmental subordinates.

12. The attention of the Government of Bengal will be drawn to the remarks made in paragraph 18 of this Department's letter to the address of the Hon'ble the Chief Commissioner of the Central Provinces, No. 3947-Exo, dated the 11th July 1905,* with reference to the consumption of country beers in the Sambalpoore district, where it appears that some restriction on the sale of this article is very desirable.

* Copy forwarded herewith to the Government of Bengal for ready reference.

13. It is requested that the Local Governments concerned will report, as soon as possible, the extent to which they will be prepared to give early effect in the areas administered by them to the recommendations of the Committee in so far as these have been approved by the Government of India.

ORDERED, that a copy of the foregoing Resolution be communicated to all Local Governments and Administrations, for information and guidance, and also to Major Bedford, with reference to paragraph 10 (c) above, with the request that he will undertake the necessary investigation to determine the proper ingredients of *bakhar*.

Nos. 1269-1279.

Simla, the 3rd June 1907.

RESOLUTION—By the Government of India, Home Department.

CERTAIN circumstances attending the recent outbreaks of lawlessness in the Punjab and Eastern Bengal have forced upon the attention of the Government of India the deliberate efforts made by a number of newspapers, both English and Vernacular, to inflame the minds of the people, to encourage ill-will between classes, to promote active hostility to the Government, and to disturb the public tranquillity in many different ways. The Governor-General in Council has no desire whatever to restrict the legitimate liberty of the Press to criticise the action of the Government, and he would be most reluctant to curtail the freedom of the many well-conducted papers because of the misbehaviour of a few disloyal journals. But he is responsible for the maintenance of law and order among a vast and heterogeneous population, and he is unable to tolerate the publication of writings which tend to arouse the disorderly elements of society and to incite them to concerted action against the Government. On these grounds he has determined that the dissemination of sedition, and the promotion of ill-will between classes must be repressed by firm and sustained action under the penal law. Accordingly, in supersession of previous orders on the subject, His Excellency in Council empowers Local Governments to institute prosecutions in consultation with their legal advisers in all cases where the law has been wilfully infringed. He hopes that the warning now given may, in great measure, avert the necessity for numerous prosecutions, but if this hope should unhappily not be realised, he relies upon the local authorities to deal with the evil effectively.

ORDER.—Ordered that a copy of this Resolution be communicated to all Local Governments and Administrations for information and guidance.

Ordered also that the Resolution be published in the *Gazette of India* for general information.

No. 4555—4.

Simla, the 31st May 1907.

RULES TO REGULATE THE TRANSPORT AND IMPORTATION OF EXPLOSIVES.

IN supersession of the Notification of the Government of India in the Home Department, No. 5528 (Public), dated the 11th October 1901, and of all amending notifications, and in exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act, 1884 (IV of 1884), the Governor-General in Council is pleased to make the following rules to regulate the transport and importation of explosives.

These rules extend to the whole of British India, but the rules relating to the transport of explosives shall cease to apply to any port as defined in the Indian Ports Act, 1889 (X of 1889), for which special rules made by the Local Government are for the time being in force, in so far as they are expressly superseded by, or are inconsistent with, such special rules.

Nothing in these rules shall apply to the packing, transport or importation of capped safety-cartridge cases, if otherwise empty, when packed, transported or imported in the same consignment with arms covered by a license granted under the Indian Arms Act, 1878 (XI of 1878).

6. (1) The expression "fulminate", as used in these rules, means any chemical compound or mechanical mixture, whether included in any of the foregoing definitions or not, which, from its great susceptibility to detonation, is suitable for employment in percussion-caps or any other appliance for developing detonation, or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

Definition of
subdivision
"fulminate"
(class 6)

(2) Fulminate shall, for the purposes of these rules, be subdivided as follows, namely:

- (a) Division 1, comprising such compounds as the fulminates of silver and of mercury, and preparations of those substances such as are used in percussion-caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of compounds of phosphorus, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with sulphuret, with or without carbonaceous matter; and

(3) The expression "detonator", as used in these rules, means a capsule or case which is of such strength and construction, and contains fulminate in such quantity that the explosion of one capsule or case would communicate the explosion to other like capsules or cases.

(4) The expression "safety fuze," as used in these rules, means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity that the burning of such fuze would not communicate laterally with other like fuses.

(5) The expression "safety cartridge," as used in these rules,—

- (i) means a cartridge for small arms, the case of which can be extracted from the small arm after firing, and which is so closed as to prevent any explosion in one cartridge being communicated to other cartridges; and
- (ii) includes a rifle-calibre machine-gun cartridge, if it is as described in clause (i) whether it is for use with a machine-gun having chambers identical with those of rifles or with a machine-gun having special chambers:

Explanation.—The expression “ammunition containing its own means of ignition” means ammunition having an arrangement, whether attached to or forming part of the ammunition which is adapted to explode or fire the ammunition by friction or percussion.

Subdivision
of
“firework” (class
7).

8. Fireworks shall, for the purposes of these rules, be subdivided as follows, namely:

- (1) Division 1, comprising firework compositions, that is to say,—

9. The following general rules shall be observed with respect to the packing of explosives for conveyance:—

- (1) Unless the context otherwise requires,—

the expression “outer package” means a box, barrel, case or cylinder, of wood, metal or other solid material, of such strength, construction and character that it will not be broken or accidentally opened, nor become defective or insecure whilst being conveyed, and will not allow any explosive to escape;

the expression “inner package” means a substantial case, bag, canister or other receptacle, made and closed so as to prevent any explosive from escaping;

the expression “authorized explosive” means exclusively an explosive included in a List of Authorized Explosives prepared by the Chief Inspector of Explosives with the Government of India, and published annually in the *Gazette of India*, and in force for the time being;

the expression “propellant” means an authorized explosive of class 3 adapted and intended exclusively for use as a propelling charge in cannon or small arms; and the expression “special authority” means a written authority granted by the Chief Inspector of Explosives to which may be attached such conditions as may, in the opinion of the Chief Inspector of Explosives, be necessary to meet the special requirements of the case.

(3) Save as hereinafter provided, there shall not be any iron or steel in the construction of any package unless the same is covered with suitable material so as effectually to prevent the exposure of such iron or steel.

Provided that this rule shall not prevent the packing of inner packages containing a propellant in an outer package with inner packages containing gunpowder or another propellant:

Provided also that this rule shall not prevent the packing of any article which is not of an inflammable or explosive nature, or liable to cause fire or explosion in the same package as an explosive of the 1st Division of the 6th (Ammunition) class.

10. Whoever commits a breach of any of the foregoing rules relating to the packing of explosives for conveyance shall be punishable with fine which may extend to Rs. 1,000.

11. The following general rules shall be observed with respect to the conveyance of explosives:

I.—No explosive shall be conveyed from place to place unless packed in the manner provided for in the foregoing rules.

II.—There shall not be conveyed in any carriage or vessel which is being used for the conveyance of an explosive, any explosive of a different class and division, of whatsoever nature, which contains its own means of ignition, unless it is sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

III.—Except in the case of small consignments carried by railway which may be unloaded at any time, explosives shall be loaded or unloaded only between sunrise and sunset. For the purposes of this rule no consignment of more than half a wagon-load booked to one station shall be deemed to be a small consignment.

IV.—Whilst the explosive is being loaded on or unloaded out of any carriage or vessel, no fire or artificial light, or any article which is liable to cause or communicate fire or explosion [such as charcoal, lucifer matches, articles for striking a light, petroleum to which the Indian Petroleum Act, 1899 (VIII of 1899), or any other Act for the time being in force regarding the importation, possession, and transport of petroleum, applies, or any spirit or oil or substance that gives forth an inflammable vapour at a temperature below 100° Fahrenheit] shall be, or shall be allowed to be, brought, had or used dangerously near to such carriage, ship, or boat, and no smoking shall be allowed in, on, or dangerously near to, the same :

Penalty.

Mode of conveyance.

Provided that when the use of a light for the purposes of such loading or unloading is unavoidable, a lamp of such construction, position, or character as not to cause any danger from fire or explosion may be used; and no person while handling any explosive (except an explosive of Division 1, Class 6, if packed in accordance with the packing rules) shall wear boots or shoes with iron or steel nails, heels or tips.

V.—In the loading or unloading of any explosive, the casks and packages containing the same shall be passed from hand to hand and not rolled upon the ground; they shall not be thrown or dropped down, but shall be carefully deposited and stowed.

VI.—The explosive shall not be conveyed except in the interior of a carriage so enclosed on all sides with wood or metal, or in the hold of a ship or boat having a close deck so closed as effectually to protect the explosive against accident by fire from without. If the explosive cannot be so secured, it shall be completely covered with painted cloth, tarpaulin, or other suitable material so as to effectually protect it against communication of fire.

VII.—There shall not be any iron or steel in the interior of the portion of the carriage or vessel with which the case containing the explosive is or may come in contact, unless the same is effectually covered with leather, wood, cloth, or other suitable material.

VIII.—In the stowing of the explosive, due precautions shall be taken by means of a partition or otherwise and by careful stowing to secure such explosive from being brought into contact with, or endangered by, any other article or substance conveyed in such carriage or vessel which is liable to cause fire or explosion; and if the explosive is dangerously affected by water, due precautions shall be taken to exclude water from coming into contact with such explosive.

IX.—The amount of the explosives conveyed in any one carriage or vessel at any one time shall not exceed 2,000 lbs. unless the carriage be so enclosed on all sides with wood or metal, or the vessel have a close deck so closed as effectually to protect the explosive against accident by fire from without, in which case the amount of the explosives conveyed shall not exceed the following—

	Tons.
In any one carriage on a railway	10
In any one other carriage	2
In any one vessel	20

NOTE.—This rule shall, in the case of dynamite conveyed by railway, be read subject to paragraph XII of Rule 12.

X.—Nothing in the foregoing rules (except Rule I) shall apply to any explosive of the 1st Division of the 6th (Ammunition) Class:

Provided that all due precautions are taken for the prevention of accidents.

12. The following rules shall be observed with respect to the conveyance of explosives otherwise than by railway:

I.—No explosive shall be conveyed in a carriage or boat whilst carrying or plying for public passengers, unless the quantity is less than 5 lbs and notice has been given beforehand to the person in charge of such carriage or boat; and all due precautions are taken for the prevention of accidents by fire or explosion:

Provided that there shall not be conveyed in any such carriage or boat any explosive of the 5th (Fulminate) Class or any explosive of the 3rd Division of the 6th (Ammunition) Class or of the 1st Division of the 7th (Firework) Class, except detonators packed according to Rule 9 to the number of 200.

Provided that the amount of explosive of the 5th (Fulminate) Class in the detonators shall in no case exceed in the aggregate 8 oz. (a certificate to this effect being given by the agent of the company by whom the detonators are tendered for transport).

Provided also that no other explosive is carried in the same compartment.

II.—With respect to the conveyance by carriage or vessel of explosives of the 5th (Fulminate) Class, or of the 3rd Division of the 6th (Ammunition) Class, or of the 1st Division of the 7th (Firework) Class, or of larger quantities than 5 lbs. of any other explosive, the following regulations shall be observed:—

(1) The person in charge of the carriage or vessel shall not drive or conduct the same in a dangerous or reckless manner, and shall take all due precautions to avoid fire and explosion, and no person shall do any act or thing in relation to the explosive which tends to cause fire or explosion, and is not reasonably necessary for the conveyance of the explosive or for work immediately connected with such conveyance; and a person who is intoxicated shall not have charge of any carriage or vessel conveying explosive, and shall not be permitted to be in, or on, or attending the same.

(2) A person shall not forward to any warehouseman or carrier a consignment of explosive, unless he has given notice to such warehouseman or carrier beforehand, stating the name and quantity of the explosive proposed to be conveyed, and the name and address of the proposed consignee, and has had an intimation that the warehouseman or carrier is prepared to receive the

consignment, and a warehouseman or carrier shall not make such an intimation nor receive such consignment, unless he is prepared to receive it, and forthwith to despatch the same, or to deposit it in a magazine or at a place at which a person is licensed to possess the same.

- (5) The carriage or vessel conveying the explosive shall be in charge of, and constantly attended by, some competent person, or by a sufficient number of competent persons, and such persons shall not, if the amount of the explosive conveyed exceed 100 lbs., stop or delay for a longer time than may be reasonably necessary or stop unnecessarily at any place where such stopping would be attended with special public danger.

III.—No explosive belonging to class 1 (gunpowder class), class 2 (nitrate mixture class), class 3 (nitro-compound class), class 4 (chlorate mixture class) or class 5 (fulminate class), shall be carried, otherwise than by rail, across any railway bridge over which reasonable facilities for the conveyance thereof by rail are afforded by the Railway Administration:

Provided that this prohibition shall not apply in respect of quantities of explosives of class 1 (gunpowder class) or class 3 (nitro-compound class) not exceeding 5 lbs. in weight.

18. The following rules shall be observed with respect to the conveyance of explosives by public railways:

Conveyance
public railways.

I.—No person shall send for carriage upon any railway any consignment of an explosive, unless he has given to the officer in charge of the railway station previous notice in writing which, at the option of the Railway Administration, may extend to 48 hours, of his intention to send such consignment, and stating the true name, description, quantity and mode of packing of the explosive proposed to be conveyed, and his own name and address, and also the name and address of the proposed consignee, and unless he has had an intimation in writing from an authorized officer of the railway that such consignment will be received.

II.—No explosive which a Railway Administration shall, by any notice or regulation for the time being in force, notify that they will not receive, shall be brought, sent, or forwarded to or upon any railway of the said Railway Administration.

III.—Consignments of explosives shall be sent to the forwarding station and shall be received by the railway servants only at such times, between sunrise and sunset, as the Railway Administration may appoint; and every package containing any explosive proposed to be conveyed on any railway shall immediately on arrival at the station be unloaded and placed in a safe place under the special direction of the officer in charge of the station.

All gunpowder under despatch or receipt by a Government arsenal, depot, or factory shall be loaded or unloaded in the railway vans by Government servants employed in such arsenal, depot or factory. In each van used by the railway for the transport of gunpowder the packages of gunpowder shall be secured in such a way as to prevent concussion when the train is in motion.

IV.—An explosive shall be removed by the consignee from the receiving station during the twelve hours of daylight after arrival: if this condition is not strictly complied with, the Railway Administration may return the consignment to the consignor at his risk and expense. And such packages shall in the meanwhile be kept as far away from the station buildings as possible, in the wagon they were conveyed in, or, if unloaded, shall be completely covered with tarpaulins or other suitable material, and, if necessary, shall be protected by a police guard.

V.—The Railway Administration may refuse to receive any packages which they suspect to contain any explosive packed or sent in contravention of these regulations. And in case any package, which the Railway Administration suspect, shall be upon any railway, the Railway Administration may open, or require to be opened, such package to ascertain the fact, at the risk and expense of the consignor and may return the explosive contained in the package to the consignor at his risk and expense, keeping the packages pending such return in the manner prescribed in the preceding rule.

VI.—Subject to the exception provided for in clause (c), no explosive shall be conveyed by passenger train except of the kinds and in the manner hereinafter specified in this rule:

- (a) Safety-cartridges and percussion-caps and safety-fuses (for blasting), also fog-signals for railway use which may be conveyed in ordinary wagons or carriages.

- (b) Explosives of the 3rd (nitro-compound) class which may be carried in the form of cartridges up to the limit of 5 lbs.:

Provided that no detonators are carried in the same compartment.

- (c) Detonators packed according to Rule 9 may be carried to the number of 200:

Provided that in no case the amount of fulminate of mercury in the package or packages containing the detonators exceeds in the aggregate 3 oz. (a

certificate to this effect being given by the company, firm, or person tendering the detonators for transport or by its or his agent):

Provided also that no other explosive is carried in the same compartment.

- (d) Sporting gunpowder or non-safety cartridges packed in double cases as before provided, so long as the gunpowder is contained in one-pound tin canisters packed in a stout wooden case with an outer covering of tin or zinc completely spark-proof, or in metal-lined cases of a pattern approved by the Railway Administration. But no outer case shall contain more than 25 lbs. of gunpowder, and the total consignment of gunpowder or non-safety cartridges by one train shall not exceed 80 lbs.
- (e) Explosives may be carried by mixed trains on any line on which goods trains are not running, subject to the conditions that they are loaded in properly-constructed powder-vans; that not more than one powder-van containing explosives is forwarded at any one time by a mixed train; that there are not less than three vehicles between the powder-van and either the engine or the passenger coaches; that the powder-van is close coupled to the adjoining vehicles; and that directly a powder-van containing explosives arrives at a section on which goods trains are running, it is detached from the mixed train.

VII.—Not more than five carriages containing explosives shall be loaded or unloaded at any railway station, or be conveyed by any one train at any one time; and the quantity of explosive to be contained in any one carriage shall not exceed two-thirds of the normal load, unless the carriages shall be specially built and approved by the Railway Board for the conveyance of explosives. But nothing in this clause shall be held to apply to separate consignments of safety-cartridges for small arms.

VIII.—There shall not be conveyed in the same carriage with any explosive any lucifer or other matches, fuzes, pipelights, acids, naphtha, paraffine, petroleum, to which the Indian Petroleum Act, 1899 (VIII of 1899), or any other Act for the time being in force regarding the importation, possession, and transport of petroleum, applies or any other volatile spirit substance liable to give off an inflammable vapour or liable to spontaneous ignition, or to cause or communicate fire or explosion.

IX.—The consignor shall attach to the consignment note a certificate or (provided the original is produced for verification) copy of a certificate, signed by an officer authorized by the Local Government in this behalf, that the explosive if it is an explosive of class 3 or 4, is of the standard purity; and further, in the case of dynamite and all nitro-glycerine compounds, that there are no signs of exuded nitro glycerine or of liquefaction. The consignor shall also certify that the explosive has been packed in accordance with the packing rules in force in England or in British India.

X.—In the case of explosives under clauses 3 and 4, the outer packages shall be marked with the date of the manufacture of the explosives. The abovementioned certificate shall contain sufficient information to admit of all packages being easily recognized.

XI.—The certificate referred to in Rule 13 (IX) shall be valid for six months after date, if the examination has been made between the 15th October and 31st March, but any Railway Administration which accepts dynamite and other nitro-glycerine compounds for transport may demand a fresh certificate for these explosives, if presented for conveyance between 1st April and 15th October both inclusive.

XII.—Packages containing dynamite and other blasting explosives of the 3rd (nitro-compound) class, or explosives of the 4th (chlorate mixture), 5th (fulminate) classes or of the 1st division of the 7th (firework) class shall be stowed in one layer only and secured so as to prevent movement during transit, and the gross load in any one wagon shall not exceed 3 tons:

Provided that, if the packages of explosive are in rectangular form and are properly secured so as to prevent movement during transit, they may be stowed in any number of layers not exceeding five, and the gross load in any one wagon shall not exceed 5 tons.

XIII.—No explosive of the 5th (fulminate) class or of the 3rd division of the 6th (ammunition) class, or of the (7th firework) class shall be carried in the same train with any explosive not of the class and division to which it belongs unless it be sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

XIV.—Wagons used for the carriage of explosives shall be examined to see that they are spark-proof, and have been cleaned out before they are loaded. Hair, cloth, hides, or other suitable materials shall be spread on the floor of the wagon and between each layer of packages, except when the packages are covered with gunny or felt, or contain safety-cartridges for small arms packed in tin-lined service-pattern boxes.

XV.—Wagons containing explosives shall be loaded and unloaded on sidings distant as far as possible from the station buildings.

XVI.—Packages containing explosives other than those referred to in Rule 13 (XII) shall not be stored in more than three layers, one above the other. But if the packages are in rectangular form and of uniform size (provided they are double packages, and are so secured as to prevent movement during transit), they may be packed in five layers, one above the other. But in the case of safety cartridges, for small arms packed in tin-lined service pattern boxes, there is no restriction. Subject to the provisions of Rule 11 (III), the loading and unloading of explosives when once begun shall be diligently proceeded with until the same is completed.

XVII.—When the train is being marshalled, wagons loaded with explosives may be shunted by a locomotive, if they are separated from the engine by not less than three wagons containing no explosive nor easily inflammable substance. This precaution is not necessary with wagons specially constructed for the carriage of explosives. The speed of these movements shall be restricted to five miles an hour; they shall be superintended by a duly authorized officer, who shall be held responsible for the observance of these orders. Flying shunts are strictly prohibited.

XVIII.—Wagons containing explosives shall be placed at the end of the train away from the locomotive, and shall be close-coupled to one another as well as to the adjoining wagons, and shall be preceded and followed by three wagons not loaded with explosives or other traffic of an inflammable nature:

Provided as follows:

- (a) On the Darjeeling-Himalayan Railway, wagons containing explosives and adjoining wagons need not be close-coupled to one another; and
- (b) On the Nilgiri Railway only one wagon need intervene between the locomotive and wagons containing explosives.

XIX.—If the wagons employed in the transport of explosives are provided with brakes other than iron brakes, the brakes thereon shall on no account be worked while the wagons are running with a train, nor shall brakes, other than iron brakes, on vehicle immediately adjoining such wagons, be worked while such wagons are so running.

XX.—Wagons shall in every case be locked when loaded with explosives.

XXI.—All operations connected with the transshipment of explosives at junction stations shall take place during daylight.

14. Whoever commits a breach of any of the foregoing rules relating to the mode of conveyance of explosives shall be punishable with a fine which may extend to Rs. 100. *Penalty.*

IMPORTATION.

15. Subject to the following provisos, an explosive shall not be imported by sea or land into British India, except under and in accordance with the conditions of a license to import the explosive: *License when required for importation.*

Provided that explosives may be imported by sea, previous to the grant of an importation license, in accordance with Rules I, II, III, and IV of this rule.

I.—Any explosive other than an explosive specified in Rule 18 may, previous to the grant of license to import, if it is included in a list published under clause (1) of Rule 9 and for the time being in force, and if it is certified to be of British manufacture or, if not of British manufacture, if it is imported from the United Kingdom and covered by the certificate granted by one of His Majesty's Inspectors of Explosives in England, be landed in accordance with such regulations as the Local Government may prescribe in this behalf and be stored in a place set apart by the Local Government for this purpose, or in any private magazine declared by the Local Government to be suitable therefor.

II.—Any such explosive of British manufacture may also be transported by rail to any such private magazines previous to the grant of a license to import.

III.—The Governor-General in Council may extend to any such explosive not of British manufacture regarding which he is satisfied that it has been manufactured under adequate official supervision the privilege of landing granted by Rule I, but such explosive may not be transported by rail until an importation license has been granted.

IV. Before any explosive is landed under Rules I and III, the consignee shall give to the Chief Customs Officer of the port such undertaking, with or without security, as the said officer thinks sufficient, to obey, in the event of the explosive failing to satisfy the prescribed tests, such directions as to its disposal as the Local Government may see fit to prescribe.

If samples are taken, the procedure shall be that described in Rule 28.

Provided, also, that explosives of British manufacture may be imported by land, previous to the grant of an importation license, in accordance with Rules V and VI of this rule.

V.—Explosives (except those specified in Rule 18) included in a list published under Rule 9 (1), and certified to be of British manufacture, may, previous to the grant of a license, be imported and conveyed, under such conditions as the Local Government may prescribe, to a magazine appointed in this behalf by the Local Government.

VI.—Before an explosive is imported under Rule V, the consignee shall give to the Magistrate of the district in which the magazine appointed under Rule V is situate, or to the Commissioner of Police if such magazine is situate in a Presidency town or Rangoon, such notice of his intention to import the explosive as the Local Government may prescribe; and shall give such undertaking, with or without security, as the said District Magistrate or Commissioner of Police may require, that he will, in the event of the explosive failing to satisfy the prescribed tests, comply with such directions as to its disposal as the Local Government may issue.

If samples are taken, the procedure laid down in Rule 24 shall be followed.

Penalty.

16. Whoever imports an explosive in contravention of Rule 15 shall be punishable with fine which may extend to three thousand rupees.

17. An explosive shall not be imported by sea except at one of the ports of Calcutta (including Moyapur and Diamond Harbour), Madras, Bombay, Rangoon, Calicut, Karachi, Aden and (in the case of crackers only) Negapatam and Moulmein. But a license to import an explosive by sea from Rangoon into the port of Akyab, Sandoway, Kyauk Phyo, Tavoy, Mergui or Victoria Point as the case may be, may be granted by the Magistrate of the district in which such port is situated. The fee payable in respect of each such license shall be one rupee, and the license shall be in Form A in the schedule hereto annexed.

Grant of licenses for importation in certain cases.

18. If the explosive is gunpowder or an explosive of the 1st division of the 6th (Ammunition) class or of the 7th (Firework) class, the license to import the same may be granted,—

- (a) if the importation is by sea, by the Commissioner of Police of Calcutta, Madras, Bombay or Rangoon, or the District Magistrate of Calicut, Karachi, Aden, Negapatam or Moulmein as the case may be, and
- (b) if the importation is by land, by the officer appointed to grant licenses under Rule 21.

Fees for licenses granted under Rule 18.

19. The fee payable in respect of each such license shall be Rs. 10; but if any explosive imported under a license into a British port is exported thence to another British port named in Rule 17, the necessary license for such re-import may be granted on payment of a fee of one rupee instead of Rs. 10.

Grant of licenses for importation by sea in cases not provided for by Rule 18.

20. Licenses for the importation by sea of any explosives other than those specified in Rule 18 shall be granted by the Local Government or by some officer specially authorized by the Local Government in this behalf.

21. Licenses for the importation of explosives into British India by land shall be granted by the Magistrate of the district to which the explosives are consigned, or, if the explosives are consigned to a Presidency town, or Rangoon, by the Commissioner of Police. The fee payable in respect of each such license shall be Rs. 10.

- (b) its importation is recommended by the Chief Inspector of Explosives with the Government of India, and
- (c) if it is an explosive for which a test or examination has been prescribed by or under the orders of the Government of India, samples of it taken as herein after provided are certified by the Chemical Examiner or some other officer appointed by the Local Government in this behalf to have passed the test or examination from time to time prescribed.

Testing of importations by sea in certain cases.

23. On the arrival in any port at which the importation of explosives is lawful of a ship having on board an explosive other than an explosive of the description referred to in Rule 18, such officer as the Chief Customs Officer authorizes in this behalf shall, as soon as may be, proceed on board and shall, if testing or examination is requisite under the last preceding rule, obtain samples of the explosive.

All explosives of which samples are taken for examination shall forthwith be deposited in a place or magazine set apart or notified under Rule 15-I, and shall not be distributed for use until the importer has received from the licensing authority notice that it may be so distributed.

The master of the ship shall give to the said officer, without charge, such samples as he may require. The said officer shall affix to each such sample the name of the ship and of the consignee and such other distinguishing marks as he may think necessary, and shall forward the same to the Chemical Examiner or officer, as aforesaid, for report.

The Chemical Examiner or officer as aforesaid, after testing the said samples, shall without delay forward to the licensing authority, through the Chief Customs Officer, a report under his signature certifying whether the explosive has satisfied the prescribed test.

deliver free of charge to such officer or person as may be appointed by the Local Government in this behalf such samples as he may require. No explosive of which a sample has been so taken shall be removed to its destination or distributed for use until the importer or the person in charge of the magazine has received from the licensing authority a notice that it may be so removed or distributed.

The officer or person appointed as aforesaid shall affix to the sample received by him the name of the consignee and such other distinguishing marks as he may think necessary, and shall forward the sample for report to the Chemical Examiner or other officer appointed by the Local Government in this behalf.

The Chemical Examiner or such other officer as aforesaid shall, after testing the sample, without delay forward to the licensing authority, through the officer or person from whom he received the sample, a report under his signature certifying whether the prescribed test has been satisfied.

25. Explosives, other than those referred to in Rule 18, which have already undergone the test prescribed by Rules 22 and 23 at the Ports of Calcutta (including Moyapur and Diamond Harbour), Madras, Bombay, Rangoon, Calicut, Karachi or Aden, may be re-imported by sea into any other of those ports under a license granted under Rule 20 without re-testing, but subject, in the case of such explosives as are mentioned in Rule 13, Clause IX, to the production of the certificate prescribed in that clause.

Re-importation from one prescribed port into another.

Such certificate shall be valid for six months after date, if the examination has been made between the 15th October and 31st March; but in the case of dynamite, a fresh certificate may be demanded if the consignment is imported between the 1st April and 15th October (both inclusive).

26. The period for which a license to import an explosive, granted under Rules 20 and 21 shall continue in force, shall not exceed such period as may seem necessary to the authority granting the license.

Duration of license granted under Rules 20 and 21.

27. The fee payable on a license granted under Rule 20 shall be Rs. 10, but if any explosive imported under a license into a British port is exported thence to another British port named in Rule 17, the necessary license for such re-import may be granted on payment of a fee of one rupee instead of Rs. 10.

Fees for licenses granted under Rule 20.

28. Every license granted under Rules 18, 20 and 21 shall be in Form A in the Schedule hereto annexed, and shall be subject to the conditions therein prescribed, and also to such additional conditions with respect to the time and place of unloading, landing, delivery and conveyance of the explosive, and such other conditions as may in each case be thought by the licensing officer to be necessary for the public safety or in the interest of the State.

Form of license under Rules 18, 20 and 21.

29. Whoever commits a breach of any condition, subject to which a license under Rules 18, 20 and 21 is granted, shall be punishable with fine which may extend to three thousand rupees.

Penalty.

30. (1) Any of the officers mentioned in clause (2) of this rule may, within the areas respectively specified in that clause, but subject to the provisions of the Indian Arms Act, 1878 (XI of 1878), and of any rules for the time being in force thereunder, in cases to which that Act applies—

Rule for Testing Explosives.

With reference to Rule 22 of the Rules to regulate the transport and importation of explosives published with this Notification, and in supersession of the Notification of the Government of India in the Home Department, No. 5529 (Public), dated the 11th October 1901, the Governor General in Council is pleased to make the following rule on the subject of the tests which explosives should be required to pass before their importation is permitted.

RULE.

Class 1—Gunpowder class.—Gunpowder is not required to pass a test.

Class 2—Nitrate-mixture class.—Nitrate-mixture explosives are not ordinarily required to pass a test. The Local Government, however, or the authorised officer granting the import license under Rules 20 and 21 of the Rules to regulate the transport and importation of explosives published with this Notification may, in any particular case or class of cases, require that a sample of the explosive which is to be imported be sent first to the Chemical Examiner for an analysis of its constituent parts.

Class 3—Nitro-compound class.—It is for explosives of this class that testing is chiefly required in respect to the purity of their composition and their liability to liquefaction or exudation. The tests prescribed for nitro-compound explosives are contained in Schedule A attached to this rule.

Class 4—Chlorate-mixture class.—See Schedule A for remarks regarding the testing of this class.*

Class 5—Fulminate class.—No test has been laid down for explosives of the Fulminate class.*

Class 6—Ammunition class.—No test is required for explosives of the 1st Division of this class. If the substances of which explosives of the 2nd and 3rd Divisions are composed have to be tested under the preceding rules, they will be equally liable to be tested when enclosed in any case or contrivance and thus falling under the Ammunition class.

Class 7—Firework class.—Explosives of this class are not required to pass a test.

SCHEDULE A.

Heat Test as applied to Explosives of the Nitro-compound Class.

GENERAL INSTRUCTIONS.

Apparatus required.

1. A water bath consisting of a spherical glass or copper vessel [(a) Fig. 1] of about 8 inches diameter, and with an aperture of about 5 inches; the bath is filled with water to within a quarter of an inch of the edge. It has a loose cover of sheet copper about 6 inches in diameter (b), and rests on a tripod stand about 14 inches high (c), which is covered with coarse iron wire gauze (e), and is surrounded with a screen of thin sheet tin or copper (d). Within the latter is placed an Argand burner (f), with glass chimney. The cover (b) has

* Licenses are not at present given for the importation into British India of any explosives of these classes.

four holes arranged as seen in Fig. II, No. 4 to receive the regulator, No. 3 the thermometer. Nos. 1 and 2 the test-tubes containing the gun-cotton or other materials to be tested. Around holes 1 and 2 on the under side of the cover are soldered three pieces of brass wire with points slightly converging (Fig. II.); these act as springs and allow the test-tubes to be easily placed in position and removed—

- 2. Scheibler's or Page's temperature regulator.
 - 3. Two cells of Le Clanché's battery No. 1
 - 4. A few yards of insulated copper wire
- } if Scheibler's regulator is used.
5. Test-tubes from $6\frac{1}{2}$ to $5\frac{1}{2}$ inches long, and of such diameter that they will hold from 20 to 22 cubic centimetres of water when filled to a height of 5 inches.
6. India-rubber stoppers, fitting the test-tubes and carrying an arrangement for holding the test-paper, viz., a narrow glass tube passing through the centre of the stopper, drawn out so as to form a hook, or terminating in a platinum wire hook (Fig. IV).
7. A thermometer, with range not less than from 30° to 212° Fahrenheit.
8. A minute clock.

Materials required.

(a) *Test-paper.*—The test-paper is prepared as follows:—45 grains of white maize starch (cornflour), previously washed with cold water, are added to $8\frac{1}{2}$ ounces of distilled water, the mixture is stirred, heated to boiling, and kept gently boiling for 10 minutes; 15 grains of pure potassium iodide (*i.e.*, which has been re-crystallized from alcohol) are dissolved in $8\frac{1}{2}$ ounces of distilled water. The two solutions are thoroughly mixed and allowed to get cold. Strips, or sheets, of best white English filter paper, weighing, air dry, from 4.1 to 4.6 grammes per 100 square inches previously washed with water and re-dried, are dipped into the solution thus prepared, weighing, air dry, about 6.5 grammes per 100 square inches, and allowed to remain in it for not less than 10 seconds; they are then allowed to drain and dry in a place free from laboratory fumes and dust. The upper and lower margins of the strips, or sheets, are cut off, and the paper is preserved in well-stoppered or cork bottles and in the dark.† The dimensions of the pieces of test-paper used are about $\frac{1}{4}$ inch by $\frac{1}{2}$ inch (10 mm. by 20 mm.).

• This is not absolutely required, as the temperature of the bath can be kept constant by proper attention to the heating flame.

† When a paper is freshly prepared, and as long as it remains in good condition, a drop of dilute acetic acid, put on the paper with a glass rod, produces no coloration. In process of time, however, the stronger the light to which the paper is exposed, the sooner a drop of acid produces a brown or bluish coloration (a single hour of direct sunlight produces a marked effect), and whenever this is the case the paper should be rejected. After preparation the paper should be kept in the dark for a month before being taken into use. After that, if carefully kept in the dark, it will remain good for six months or more, but should be tested from time to time as above.

(b) *Standard tint paper.*—A solution of caramel in water is made of such concentration that when diluted one hundred times (10 cc. made up to 1 litre) the tint of this diluted solution equals the tint produced by the Nessler test in 100 cc. water containing 0.000075 grm. of ammonia or 0.00023505 grm. of chloride of ammonium. With this caramel solution lines are drawn on strips of white filter paper* by means of a clean quill pen. When the marks thus produced are dry the paper is cut into pieces of the same size as the test-paper previously described, in such a way that each piece has a brown line across it near the middle of its length, and only such strips are preserved in which the brown line has a breadth varying from $\frac{1}{8}$ mm. to 1 mm. ($\frac{1}{16}$ of an inch to $\frac{1}{4}$ of an inch).

I.—Testing Dynamite, Blasting Gelatine, and other Explosives of the First Division of the Nitro-compound class.

A. DYNAMITE, ETC., ETC.

Nitro-glycerine preparations, from which the nitro-glycerine can be extracted in the manner described below, *must* satisfy the following test.

This test, however, though at present looked upon as the most important, as far as testing the purity of the nitro-glycerine is concerned, is in England only one of several which any given sample of nitro-glycerine preparation has to satisfy in order to establish its compliance with the definition in the Authorized List.

Apparatus required.

A funnel 2 inches across (d), a cylindrical measure divided into grains (e). (See sketch.)

Mode of operation.

About 300 to 400 grains of dynamite (b) finely divided are placed into the funnel which has previously been loosely plugged by some freshly-ignited asbestos (a).

The surface is smoothed by means of a flat-headed glass rod or stopper, and some clean washed and dried Kieselguhr (c) is spread over it to the depth of about $\frac{1}{8}$ inch.

Water is next carefully dropped from a wash bottle upon this Kieselguhr, and when the first portion has been soaked up more is added; this is repeated until sufficient nitro-glycerine has been collected in the graduated measure (e) below.

If any water should have passed through with the nitro-glycerine, it should be removed with a piece of blotting paper, and the nitro-glycerine, if necessary, filtered through a dry paper filter.

Application of the Test.

The thermometer is fixed so as to be inserted through the lid of the water bath described under I into the water (which is to be steadily maintained at a temperature of 160° Fahr.†) to a depth of 2 $\frac{3}{4}$ inches. Fifty grains of nitro-glycerine to be tested are weighed into a test-tube in such a way as not to soil the sides of the tube. A test-paper

* This paper must be carefully washed with distilled water in the first instance to remove any traces of bleaching matter, and dried.

† For explosives supplied for His Majesty's Military and Naval Services the temperature is fixed by the War Office at 180°.

is fixed on the hook of the glass rod so that when inserted into the tube it will be in a vertical position. A sufficient amount of a mixture of half distilled water and half glycerine to moisten the upper half of the paper is now applied to the upper edge of the test-paper by means of a camel's hair pencil, the cork carrying the rod and paper is fixed into the test-tube and the position of the paper adjusted, so that its lower edge is about half-way down the tube; the latter is then inserted through one of the perforations of the cover to such a depth that the lower margin of the moistened part of the paper is about five-eighths of an inch above the surface of the cover. The test is complete when the faint brown line, which after a time makes its appearance at the line of boundary between the dry and moist part of the paper, equals in tint the brown line of the standard tint paper.

The nitro-glycerine under examination will not be considered to have satisfied the test unless the time necessary to produce the standard tint as above described is at least 15 minutes.

B.—BLASTING GELATINE, GELATINE DYNAMITE, AND ANALOGOUS PREPARATIONS.

Fifty (50) grains of blasting gelatine are to be intimately incorporated with one hundred (100) grains of French chalk.* The mixture is to be gradually introduced into a test-tube of the dimensions prescribed above for the dynamite heat test, with the aid of gentle tapping upon the table, between the introduction of successive portions of the mixture into the tube, so that when the tube contains all the mixture it shall be filled to the extent of $1\frac{1}{2}$ inches (one inch and three quarters) of its height. The test-paper is then to be inserted and the heat is to be applied in the manner prescribed above for the dynamite heat test, and the sample tested is to withstand exposure to 160° Fahr. for a period of ten (10) minutes, before producing a discoloration of the test-papers corresponding in tint to the standard colour test which is employed for governing the results of the dynamite heat test.

(For Exudation and Liquefaction test for Blasting Gelatine, etc., etc, see Appendix.)

N.B.—Non-gelatinized nitro-glycerine preparations from which the nitro-glycerine cannot be expelled by water, are tested without any previous separation of the ingredients, the temperature being as above (160° Fahr.) and the time being seven (7) minutes.

C.—CORDITE AND BALLISTITE.

1. Apparatus required.

The apparatus necessary for the application of the heat test to cordite is identical with that described above for explosives of the nitro-compound class generally† with the addition of mill and a nest of sieves‡ similar to those used at Waltham Abbey for preparing the cordite for testing (see instructions below).

2. Preparation of the sample to be tested.

Pieces half an inch long are cut from one end of every stick selected for the test; in the case of the thicker cordites, each piece so cut is further subdivided into about four portions. These cut pieces are then passed once through the mill, the first portion of material which passes through being rejected on account of the possible presence of foreign matter from the mill. The ground material is put on the top sieve of the nest of sieves and sifted. The portion which has passed through the top sieve and been stopped by the second is taken for the test. If the mill is properly set, the greater portion of the ground material will be of the proper size.

If the volatile matter in the explosive exceed 0.5 per cent., the sifted material should be dried at a temperature not exceeding 140° Fahr. until the proportion does not exceed 0.5 per cent.

* This can be readily effected by carefully working the two materials together with a wooden pestle in a wooden mortar.

† The French chalk should be of good commercial quality, and, after being carefully washed with distilled water and dried in a water oven, it should be exposed under a bell jar to moist air until it has taken up about 0.5 per cent of moisture. It should then be bottled for use; and with ordinary care the limit of 0.5 per cent. can be maintained in keeping.

‡ In the Waltham Abbey apparatus the cover (Fig. II) has all the holes around the circumference instead of having one in the centre and three around the circumference.

† A nest of two sieves with the holes drilled in sheet copper. The holes in the top sieve have a diameter = 14 B. W. G. those in the second = 21 B. W. G.

If too hard for the mill, it may be softened by exposure to the vapour of acetone, or reduced to the necessary degree of subdivision by means of a sharp moderately coarse rasp. Should it have become too soft in the acetone vapour for the mill, it should be cut up into small pieces which may be brought to any desired degree of hardness by simple exposure to air.

Explosives which consist partly of gelatinized collodion cotton and partly of ungelatinized gun-cotton are best reduced to powder by a rasp, or softened by exposure to mixed ether and alcohol vapour at a temperature of 90° to 100° Fahr.

After each sample has been ground, the mill must be taken to pieces and carefully cleaned.

3. Application of the Test.

The thermometer is fixed so as to be inserted through the lid of the water bath described under 1, so as to be immersed in the water to a depth of $2\frac{1}{2}$ inches. The water is maintained at a constant temperature of 180° Fahr. When this temperature is reached 25 grains of the sifted cordite are put into one of the test-tubes, and collected at the bottom by gentle tapping. A test-paper is fixed on to the hook of the glass rod, so that when inserted into the tube it will be in a vertical position. A mixture of equal parts of distilled water and pure glycerine (Price's) is now applied to the upper edge of the test-paper by means of a camel's hair pencil, in sufficient amount to moisten the upper half; the stopper carrying the rod and paper is fixed into the test-tube and the position of the paper adjusted so that its lower edge is about half-way down the tube; the latter is then inserted through one of the perforations of the cover to the same depth as the thermometer. The lower margin of the moistened part of the paper should then be about five-eighths of an inch above the surface of the cover. The test is completed when the faint brown line, which after a time makes its appearance at the margin between the wet and dry portions of the test-papers, equal in depth of tint the brown line drawn on the standard tint paper.

4. The time which elapses between the insertion of the test-tube and the completion of the test must not be less than 15 minutes.

N.B.—In the case of ballistite the treatment is the same, except that when it is in a very finely granulated condition it need not be cut up.

II.—Testing Guncotton, Schultz's Gunpowder, E. C. Powder, and other explosives of the 2nd Division of the Nitro-compound class.

A.—COMPRESSED NITRO-CELLULOSE, TONITE, ETC., ETC.

Sufficient material to serve for two or more tests is removed from the centre of the cartridge by gentle scraping, and, if necessary, further reduced by rubbing through a sieve with a clean hard brush.

The fine powder thus produced is spread out in a thin layer upon a paper tray 6 inches by $4\frac{1}{2}$ inches, which is then placed outside a water oven, kept, as nearly as possible, at 120° Fahr.

The wire gauze shelves in the oven should be about 3 inches apart. The sample is allowed to remain at rest for 15 minutes in the oven, the door of which is left wide open.

After the lapse of 15 minutes the tray is removed and exposed to the air of the room for two hours, the sample being at some point within that time rubbed upon the tray with a brush, in order to reduce it to a fine and uniform state of division.

Application of the Test.

The cover of the water bath is fitted with the gas regulator which is inserted through the centre hole (No. 4). The thermometer is fixed into hole No. 3. The water in the bath is then heated to 170° Fahr. and the regulator set to maintain that temperature. Twenty grains of the sample to be tested are weighed out, placed in the test-tube, and gently pressed down until the specimen occupies a space of not more than $1\frac{1}{4}$ inches in a test-tube of the dimensions specified. A test-paper is affixed to the hook of the glass rod or tube, and moistened by touching the upper edge with a drop of distilled water containing 50 per cent. of Price's glycerine. The quantity of liquid used must be only sufficient to moisten about half of the paper. The cork carrying the rod and test-paper is then fixed into the test-tube, and the latter inserted into a bath to a depth of $2\frac{1}{2}$ inches measured from the cover, the regulator and thermometer being inserted to the same depth. The test-paper is to be kept near the top of the test-tube, but clear of the cork, until the tube has been immersed for about five minutes. A ring of moisture will about this time be deposited upon the sides of the test-tube a little above the cover of the bath; the glass rod must then be lowered until the lower margin of the moistened part of the paper is on a level with the bottom of the ring of moisture in the tube; the paper is now closely watched. The test is complete when the faint brown line which makes its appearance at the line of boundary between the dry and moist parts of the paper equals in tint the brown line of the standard tint-paper.

The interval of time between the first insertion of the tube containing the sample of guncotton in the water at 170° and the production of the standard tint constitutes the test, and this interval of time must be not less than 10 minutes, or the sample will not be considered to have satisfied the test.

B.—GELATINIZED AND SEMI-GELATINIZED NITRO-CELLULOSE PREPARATIONS.*

Twenty-five grains introduced into the test-tube* of the dimensions prescribed for the dynamite heat test, then proceed as for Blasting Gelatine, etc., taking the temperature at 180° Fahr. and the time as 15 minutes.

C.—NITRO-CELLULOSE NOT INCLUDED IN A OR B, SCHULTZ'S POWDER, E. C. POWDER, ETC., ETC.

Sufficient of the sample, without further mechanical division, is dried in the oven as above, and then exposed for two hours to the air. The test as directed above for Compressed Nitro-Cellulose, etc., is then applied, the minimum duration of test being the same, viz., 10 minutes.

D.—PICRIC ACID.

(1) The material shall contain not more than 0.3 part of mineral or non-combustible matter in 100 parts by weight of the material dried at 160° Fahr.

(2) It should not contain more than a minute trace of lead.

(3) One hundred parts of the dry material shall not contain more than 0.3 part of *total* (free and combined) sulphuric acid, of which not more than 0.1 part shall be *free* sulphuric acid.

(4) Its melting point should be between 248° and 253° Fahr.

E.—AMMONITE, BELLITE, ROBURITE, AND EXPLOSIVES OF SIMILAR COMPOSITION.

These are required to stand the same heat test as Compressed Nitro-Cellulose.

III.—Testing Chlorate Mixtures.

The material must not be too sensitive† and must show no tendency to increase in sensitiveness on keeping.

The material must contain nothing liable to reduce the chlorate.

Chlorides calculated as Potassium Chloride must not exceed 0.25 per cent.

The material must contain no free acid or substance liable to produce free acid.

Explosives of this class containing nitro-compounds will be subject to the heat test as if they belonged to Class III.

APPENDIX.

Exudation and Liquefaction Test for Blasting Gelatine, Gelatine Dynamite and analogous Preparations.

TEST FOR LIQUEFACTION.

A cylinder of blasting gelatine is to be cut from the cartridge to be tested, the length of the cylinder to be about equal to its diameter and the ends being cut flat.

The cylinder is to be placed on end on a flat surface without any wrapper, and secured by a pin passing vertically through its centre.

In this condition the cylinder is to be exposed for one hundred and forty-four (144) consecutive hours (six days and nights) to a temperature ranging from 85° to 90° Fahr. (inclusive), and during such exposure the cylinder shall not diminish in height by more than one-fourth of its original height, and the upper cut surface shall retain its flatness and the sharpness of its edge.

NOTE.—If the blasting gelatine and the gelatine dynamite to be tested be not made up in a cylindrical form, the above test is to be applied with the necessary modifications.

TEST FOR LIABILITY TO EXUDATION.

There shall be no separation from the general mass of the blasting gelatine or gelatine dynamite of a substance of less consistency than the bulk of the remaining portion of the materials under any conditions of storage, transport, or use, or when the material is subjected three times in succession to alternate freezing and thawing, or when subjected to the liquefaction test hereinbefore described.

B. ROBERTSON,

Offg. Secy. to the Govt. of India.

* If in a compressed form it should be broken up in the same manner as cordite and ballistite.

† They will be considered too sensitive if they can be exploded, however partially, by means of a glancing blow with a broomstick on soft wood (such as deal).

PART I A.

[Reprinted from the "Gazette of India" of the 27th July 1907.]

The following notification, issued by the *Gazette of India*, Legislative Department, is republished.

E. A. GAIT,
Offy. Chief Secy. to the Govt. of Bengal.

The 26th July 1907.

No. 13.—Whereas by resolution passed by the Secretary of State for India in Council on the 29th day of February 1872, the provisions of section 1 of the Government of India Act, 1870 (33 Viet., c. 3), were declared applicable to the Sonthal Parganas;

And whereas the Lieutenant-Governor of Bengal has proposed to the Governor-General in Council a draft of the following Regulation, together with the reasons for proposing the same;

And whereas the Governor-General in Council has taken the draft and reasons into consideration, and has approved of the draft and the same has received the assent of the Governor-General on the 24th day of July 1907;

In pursuance of the direction contained in the said section, the said Regulation is now published in the *Gazette of India* :—

REGULATION No. III OF 1907.

A Regulation to amend the Sonthal Parganas Rent Regulation, 1886.

WHEREAS it is expedient to amend the Sonthal Parganas Rent Regulation, 1886, in the manner hereinafter appearing; It is hereby enacted as follows :—

1. This Regulation may be called the Sonthal Parganas Rent (Amendment) Regulation, 1907.

Short title.

2. After section 19 of the Sonthal Parganas Rent Regulation, 1886, the following shall be inserted, namely :—

Additions of new sections after section 19, Regulation 11, 1886.

"19A. Notwithstanding anything contained in section 6 or section 18, the zamindar or other proprietor of a village may at any time apply to the Deputy Commissioner for the enhancement of the rent of the village or of any holding situate therein, on the ground that since such rent was adjusted and recorded by the Settlement-officer under the Sonthal Parganas Settlement Regulation, or since a table of rates and rent roll were published under section 17 the productive powers of the land in such village or holding have been increased by an improvement effected by, or at the expense of, the zamindar or other proprietor :—

Provided that in case of villages which are in the lease or management of a manjhi or headman, the zamindar or other proprietor has obtained the consent of the Deputy Commissioner prior to effecting the improvement, and that the improvement is of so substantial a nature as beneficially to effect a considerable proportion of the lands in the village.

Explanation.—The provision of security against failure of crops from drought or inundation shall be deemed to be equivalent to an increase in the productive powers of the land for the purposes of this section.

"19B. (1) If after enquiry the Deputy Commissioner finds that the productive powers of the land have actually been so increased in a permanent manner, the Deputy Commissioner may, by order in writing, enhance the rent which has been declared by the Settlement-officer to be payable, or which is entered in the rent-roll, as the case may be:

Provided that, where the Deputy Commissioner considers that the immediate enforcement of the full enhancement adjudged is likely to be attended with hardship, he may direct that the enhancement shall be gradual; that is to say, that the rent shall increase yearly by degrees, for any number of years not exceeding five, until the limit of the full enhancement adjudged has been reached.

(2) Where the Deputy Commissioner enhances rent under the provisions of sub-section (1), he shall, in his order, declare the date from which such enhancement shall take effect.

"19C. In determining the amount of enhancement the Deputy Commissioner shall have regard to—

Rules determining amount of enhancement.

- (a) the increase in the productive powers of the land caused by the improvement;
- (b) the cost of the improvement;
- (c) the existing rent and the ability of the land to bear a higher rent; and
- (d) the expense which the raiyat has to incur in order to be able to utilize the improvement.

III of 1872.

"19D. Any application under section 19A, for the enhancement of the rent of a village or of any holding situate therein, which is made to or pending before the Deputy Commissioner while a settlement is being made of such village under the Sonthal Parganas Settlement Regulation, shall be transferred by him to the Settlement-officer for disposal.

III of 1872.

"19E. Where rent has been enhanced under section 19B, on the ground of an improvement, no further enhancement shall be granted in respect of the same improvement until there is a re-settlement of the village under the Sonthal Parganas Settlement Regulation, or until a fresh table of rates and rent-roll are published under section 17:

Provided that any person by whom such rent is payable may at any time apply to the Deputy Commissioner to have the enhancement reduced or annulled on the ground that the improvement has not produced, or has ceased to produce, the estimated effect.

"19F. Where a raiyat, having entered into an agreement with the zamindar or other proprietor of a village to contribute towards the cost of an improvement, the share thereof which is fairly distributable to his holding, has paid the amount of such share to the zamindar or other proprietor, the rent of his holding shall not be enhanced under the provisions of section 19B in respect of the said improvement."

II of 1886.

3. After section 25 of the Sonthal Parganas Rent Regulation, 1886, the following shall be inserted, namely:—

Addition of new heading and section after section 25, Regulation II, 1886.

Acquisition of land for buildings and other purposes.

"25A. (1) The zamindar or other proprietor of a village, who is desirous of acquiring the holding or part of the holding of any raiyat in such village, or any land over which the inhabitant of such village have any common right, for any reasonable purpose having relation to the good of the holding, village or estate, or for the erection of buildings, or for any religious, educational or charitable purpose, may apply to the Deputy Commissioner for authority to acquire the same.

(2) On being satisfied that the purpose stated in the application made under sub-section (1) is reasonable and sufficient, and that the objections, if any, taken to the application are such that they may fairly be disregarded, the Deputy Commissioner may authorise the applicant to take possession of the land on such terms and on payment to the raiyat or other persons interested (if any) of such compensation as he thinks fair and reasonable."

The marks so reduced will be subject to a correspondingly reduced deduction under Clause 6.

6. The marks assigned to Candidates in each branch will be subject to such deduction as the Civil Service Commissioners may deem necessary (b) in order to secure that no credit be allowed for merely superficial knowledge.

7. The Examination will be conducted on paper and *visd voce*, as may be deemed necessary.

8. The marks obtained by each Candidate, in respect of each of the branches in which he shall have been examined, will be added up, and the names of the several Candidates who shall have obtained, after the deduction above mentioned, a greater aggregate number of marks than any of the remaining Candidates will be set forth in order of merit, and such Candidates shall be deemed to be Selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. † These subjects may not be offered by any Candidate who has offered them at the Open Competition.

In this Examination, as in the Open Competition, the merit of the Candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the Open Competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The Examination will be conducted on paper and *visd voce*, as may be deemed necessary. This Examination will be held at the close of the year of probation, and will be called the "Final Examination."

If any Candidate is prevented by sickness or any other adequate cause from attending such Examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special Examination.

(a) Considerable deductions will be made for bad handwriting.

(b) No deductions will be made under Clause 6 from the marks assigned to Candidates in Mathematics or English Composition.

(c) Instructions, showing the extent of the Examination, will be issued to Selected Candidates as soon as possible after the result of the Open Competition is declared.

10. The Selected Candidates will also be tested during their probation as to their proficiency in Riding.

The examinations in Riding will be held as follows :

- (1) Shortly after the result of the Open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year.
- (2) Again, at the time of the Final Examination. Candidates who may then fully satisfy the Commissioners of their ability to ride well and to perform journeys on horseback will be awarded from 100 to 200 marks, according to the degree of proficiency displayed, to be added to their marks in the Final Examination. Candidates who fail to obtain 100 marks, but are reported by the Civil Service Commissioners to have reached a minimum standard of proficiency in riding, and are certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, will, on their arrival in India, be subjected to such further tests in riding as may be prescribed by their Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government.

A Candidate who fails at the end of the year of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in Riding will be liable to have his name removed from the list of Selected Candidates.

11. The Selected Candidates who, on examination, shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, conduct during the period of probation, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force at the time for that Service.

12. Persons desirous to be admitted as Candidates must apply on Forms, which may be obtained from "The Secretary to the Civil Service Commissioners, London," at any time after the 1st December, in the year previous to that in which the Examination is to be held. No person will be admitted to the Examination from whom the Secretary to the Civil Service Commissioners has not received on or before the 1st July (or, if that date should fall upon a Sunday or public holiday, then on or before the 1st day thereafter on which their office is open) in the year in which the Examination is to be held, an application, in the handwriting of the Candidate, on the prescribed form.

The Civil Service Commissioners are authorised by the Secretary of State for India in Council to make the following announcements :—

- (i) *Selected Candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes ; but the requirements of the Public Service will rank before every other consideration.*
- (ii) *An allowance amounting to £ 150 will be given to any Candidate who passes his probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrews, Aberdeen and London (University College or King's College) ; Victoria University, Manchester.*

This allowance will be paid to the Selected Candidate in four instalments on the following dates respectively :—December 24th, after his selection, March 25th, June 24th, and the date of his signing his covenant on being finally appointed to the Service.

With the final instalment an allowance on account of passage to India will be paid to each newly-appointed civilian to the amount of £ 57 10s. 0d. for passage to Calcutta, Madras or Bombay, and £ 45 for passage to Rangoon, the Officer then making his own arrangements for his passage.

The payment of each of the first three instalments will be conditional on the receipt, by the Secretary of State, through the Civil Service Commissioners, of a certificate that the Candidate has fulfilled up to date the requirements of the Authorities, and shown satisfactory conduct at the Authorized University or College ; the fourth and final instalment will be paid as soon as the Selected Candidate has signed his covenant, and for its payment no certificate from College Authorities will be required.

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

- (iii) *Each Candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself to refund all monies he may have received from the Secretary of State for India in the event of—*

- (1) *his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Civil Service of India ; or*
- (2) *his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.*

- (iv) All Candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force, they may be required to make towards their own pensions or for the pensions of their families. The stamps payable on these covenants amount to £ 1.
- (v) The seniority in the Civil Service of India of the Candidates obtaining Certificates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations.
- (vi) Candidates obtaining Certificates will be required to report their arrival in India within such period after the grant of their Certificates of Qualification as the Secretary of State may in each case direct.
- (vii) Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the Candidate.

CIVIL SERVICE OF INDIA ;

CLERKSHIPS (CLASS I) IN THE HOME CIVIL SERVICE ; AND EASTERN CADETSHIPS.

SYLLABUS SHOWING THE EXTENT OF THE EXAMINATION IN CERTAIN SUBJECTS FOR 1908.

English Composition.—An Essay to be written on one of several subjects specified by the Civil Service Commissioners on their Examination Paper.

English Language and Literature.—The Examination will be in two parts. In one the Candidates will be expected to show a general acquaintance with the course of English Literature as represented (mainly) by the following writers in verse and prose, between the reign of Edward III and the accession of Queen Victoria :

Verse—Chaucer, Langland, Spenser, Shakespeare, Milton, Dryden, Pope, Gray, Collins, Johnson, Goldsmith, Crabbe, Cowper, Campbell, Wordsworth, Scott, Byron, Coleridge, Shelley, Keats.

Prose—Bacon, Sir Thomas Browne, Milton, Cowley, Bunyan, Dryden, Swift, Defoe, Addison, Johnson, Burke, Scott, Macaulay (Essays and Biographies).

A minute knowledge of the works of these authors will not be looked for in this part of the Examination, which will, however, test how far the Candidates have studied the chief productions of the greatest English writers in themselves, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English Literature. Candidates will also be expected to show that they have studied in these authors the history of the English Language in respect of its vocabulary, syntax, and prosody.

The other part of the Examination will relate to one of the periods named below, which will follow each other year by year in the order indicated—

1. A.D. 1360 to A.D. 1600.
(1908) [Chaucer to Spenser.]
2. A.D. 1600 to A.D. 1700.
(1909) [Shakespeare to Dryden.]
3. A.D. 1700 to A.D. 1800.
(1910) [Pope to Cowper.]
4. A.D. 1800 to A.D. 1832.
(1911) [Nineteenth Century writers to the death of Scott.]

The Examination in this part will require from Candidates a more minute acquaintance with the history of the English Language and Literature as illustrated in the chief works produced in each period, and will be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners.* The names placed under the dates are intended to suggest the general character of the literary development of the period, and, consequently, the natural limits of the Examination. All the works of Shakespeare, for example, will be regarded as falling within the period 1600 to 1700 ; all the works of Swift within the period 1700 to 1800 ; all the works of Scott and Wordsworth, and all the works of Macaulay within the period 1800 to 1832.

* The books for 1908 are : —
Chaucer : Assembly of Foules.
Flower and Leaf.
James I of Scotland : King's Quair.
Spenser : Faery Queen, V, VI, VII.

Mariow : Edward II.
Mandeville : Travels.
Sidney : Apologie for Poetrie.
Spenser : View of the State of Ireland.

No. 6564-A.

RESOLUTION.—By the Government of India, Finance Department.

THE Resolutions in this Department, Nos. 13 and 14, dated the 1st January 1889 explained generally the circumstances in which and the conditions under which the Government of India decided that loans and advances for local purposes should be made from resources placed at the disposal of Provincial Governments. Notifications Nos. 15 and 16 of the same date promulgated fresh rules for the grant of loans to local authorities by the Government and for the raising of loans by them in the open market. Since the issue of the above orders they have been subjected to frequent amendments, and the policy underlying them has been amplified from time to time.

2. The rules, after a complete revision, have now been reissued in the Notifications of this date Nos. 6565-A. and 6566-A., and the Governor-General in Council thinks it desirable to explain the reasons for the more important changes made in the rules under the Act, and to indicate the modifications that have been made in the rules of procedure and other matters of detail dealt with in the Resolutions of the 1st January 1889.

3. *Duration of loans.*—The new rules as to the duration of loans are: (a) Rule 4 of the Rules in Notification No. 6565-A., which lays down that the term of a loan made by Government shall not extend, except with the previous sanction of the Government of India, beyond 20 years; (b) Rule 5 of the same rules, which states that in the case of works which are merely or mainly ornamental or convenient, the term shall not, except with the previous sanction of the Government of India, exceed ten years; and (c) Rule 5 of the Rules in Notification No. 6566-A., which leaves it to the Governor-General in Council to determine in each case the period within which the loan, if raised in the open market, shall be repaid. The first rule embodies the principle that loans made by Government under the Local Loans

This Department Circular letter No. 2800-A, dated the 26th August 1906. Scheme should be repaid within as short a period as possible, a longer term than 20 years not being permitted except in very special circumstances. His Excellency in Council takes this opportunity of impressing upon local bodies that the extension of the term of a loan, whether taken from Government or raised in the open market, beyond the period which is absolutely necessary for its repayment is a policy of waste, for which the lightening of the immediate burden on the borrower is no justification. The prolongation of a loan does not involve a proportionate decrease of the annual charges for its service. To illustrate this point, two tables are appended to this Resolution, showing (1) the equated annual payments required to discharge a 4 per cent. Government loan of one lakh in periods varying from 10 to

60 years; (2) the annual charges of a loan of the same amount raised in the open market for the same term of years, assuming that the sinking fund is calculated on a three per cent. basis, and the payments to the sinking fund are made half-yearly; and (3) the reduction of the charges effected by postponements in the two cases. It will be seen that the annual burden of a loan raised for 20 years is appreciably greater than half the annual charge of a loan of the same amount repaid in 10 years, and that the relief to the borrower by extending the term beyond twenty years is entirely disproportionate to the added burden. Actuarially, the present value of the deferred payments is the same, whatever be the term of repayment; but the aggregate sum which has to be made good for a 30 years' loan is heavier by nearly one-fifth than it is for a twenty years' loan of the same amount.

4. It is, therefore, clearly desirable that the terms of the borrowings of local bodies should be very carefully limited. The duration of the liability should in no case exceed the life of the work for which the liability is incurred; but within the maximum thus fixed, the period appropriate in each case should be determined by other considerations, such as the existing amount of the indebtedness of the local body concerned, the prospects of the future growth of such indebtedness, and the burden which the proposed loan will impose. The factors to be taken into account in this connection will doubtless differ in different cases; but in the opinion of the Government of India a term not longer than 20 or at most 30 years ought nearly always to be sufficient, and no proposal for exceeding the latter period will be entertained, unless it is supported by the strongest reasons, of which the immediate relief to the rate-payer will not be admitted as one.

5. *Estimate of the entire expenditure on account of which the loan is required to be shown in the application therefor.*—The revised rules require local authorities to furnish, in connection with their applications for loans, an estimate of the cost of the entire work or of such part of it as it is proposed to meet from loan funds. It is essential that, when the works to be undertaken form an integral part of schemes involving large expenditure from loan funds, the borrowing body should make definite provision beforehand for the financing of the complete project. In such cases the following procedure should be observed:—

- (1) An estimate of the cost of the entire scheme should be prepared and submitted for such sanction as is required by law.
- (2) A programme of construction should be drawn up, showing the sums which will probably be required year by year until the work has been carried to completion.
- (3) The application for the loan should cover the entire cost of the project, or of so much of it as it is proposed to meet from borrowed funds, and should specify the year in which each instalment is to be raised.
- (4) No expenditure should be incurred on the work until the loan for the entire project has been duly sanctioned, and the approval of the authority competent to sanction the plans and estimates has been obtained.

6. *Provision of funds.*—In Finance Department Resolution No. 1459-A., dated the 20th March 1894, it was directed that in the case of applications from local authorities for loans which they propose to draw in instalments spread over two or more years, Local Governments should ascertain from the Government of India whether there will be any difficulty in providing the necessary allotments from year to year. The Government of India, as at present advised, consider that it will be sufficient if a report is made to them in cases in which the deferred instalments of the loan are expected to exceed a lakh *per annum*; and a provision to this effect has been made in Rule 7 (2) of the Rules for the grant of loans by Government.

7. *Penal interest.*—Rule 14 (2) in Notification No. 6565-A. gives statutory authority to the provision regarding the enforcement of penal interest contained in paragraph 5 (2) of Resolution No. 13 of the 1st January 1889, as amended by paragraph (3) of Resolution No. 4337-A., dated the 4th October 1898.

8. *Borrowing in sterling.*—In connection with Rule 3 of the Rules for the raising of loans in the open market, Local Governments are reminded that applications from local bodies for permission to issue sterling loans should not be entertained unless there is a reasonable prospect of the money being raised at a rate of interest not exceeding 4 per cent. and at a price not appreciably below par. All such applications at present require a reference to the Secretary of State; and the borrowing bodies have to make their own arrangements for bringing out the capital to India, and for remitting the interest to the holders of the stock.

9. *Sinking funds.*—Rule 6 (7th) of the Rules in Notification No. 6566-A. introduces a new provision requiring local bodies, when desirous of raising loans in the open market, to state the rate at which the improvement of the sinking fund is to be calculated. In the opinion of the Government of India, it should ordinarily be assumed that this will not be at a higher rate than 3 per cent., except in the case of loans for comparatively short terms, say up to 15 years.

Letter to the Government of Burma (and copy to other Local Governments) No. 7513-A., dated the 10th December 1903.

Letter to the Comptroller and Auditor-General, No. 2596-A., dated the 28th April 1904.

Rule 14 of these rules gives statutory effect to the instructions regarding the examination of sinking funds conveyed in the marginally-noted letters from this Department.

10. *Previous reference to the Government of India in the case of borrowings in the open market.*—In Rule 10 in Notification No. 6566-A., it is provided that no local authority should be permitted to borrow in the open market without the previous sanction of the Government of India. As was explained in Finance Department circular No. 5270-A., dated the 19th September 1906, the State claims precedence in the demands upon the money market in India; and it is essential that the Government of India should be informed beforehand of all proposals by local authorities for the flotation of loans in the open market, to enable them to prevent the loan operations of these authorities from clashing with those of the State. The orders in that circular requiring the dates within which loans are to be raised by local authorities to be reported for the previous approval of the Government of India have been reproduced in Rule 11 of the Rules in Notification No. 6566-A.

11. *Other loans and advances.*—The rules prescribed in the notifications of this date relate solely to the borrowings of local authorities under the Local Authorities Loan Act. There are other loans and advances, however, which have been brought under the operation of the Local Loans Scheme. The various classes of loans are enumerated below:—

I.—Advances to cultivators under the Land Improvement Loans Act, the Agriculturists Loans Act, or any other Acts, loans under the Cooperative Credit Societies Act, and loans under the Burma Fisheries Act.

II.—Advances under special laws not coming within class I, such as the Bengal Drainage and Embankment Acts, and the Bundelkhand Encumbered Estates Act.

III.—Loans to landholders and notabilities apart from the provisions of any law.

IV.—Loans to Municipalities, Local Boards and other public corporations.

The loans of Presidency Corporations do not come under the last class, having been excluded from the Local Loans Scheme, as stated in the Resolutions of 1st January 1889.

12. The rules of procedure as regards account and similar matters connected with the operation of the scheme as a whole are clearly laid down in Articles 123 to 130-A. of the Civil Account Code, Volume I. These embody the latest orders of the Government of India on the subject, and may be taken to supersede the corresponding rules in Resolution No. 13 of the 1st January 1889.

Ordered that the Resolution be published in the *Gazette of India*.

ACCOUNTS AND FINANCE.

LOANS AND ADVANCES.

The 24th October 1907.

No. 6565 A.—In exercise of the powers conferred by section 5 of the Local Authorities Loan Act, 1879, the Governor-General in Council has made the following rules for the grant of loans to Local Authorities by the Government :—

1. These rules shall come into force on the 1st day of November 1907. On and from that day the rules published with Notification No. 15, dated 1st January 1889, as subsequently amended, shall be rescinded except as regards loans applied for before these rules come into force.

2. In these rules—

- (1) "the Act" means the Local Authorities Loan Act, 1879;
- (2) "the Local authority" means the Local authority applying for or, as the case may be, receiving or having received the loan;
- (3) "Loan" means a loan under the Act.

3. A loan shall not be granted except for a work of public utility—

- (a) within the local limits of the area subject to the control of the local authority, or
- (b) for the benefit of the inhabitants within those limits.

4. The term of a loan shall not, except with the previous sanction of the Government of India, extend over a period exceeding twenty years.

[Note.—The term should be calculated from the date on which the loan is completely made.]

5. In the case of loans for works or in connection with works which are mainly ornamental or convenient, such as a town hall, public garden, market-place, the term shall not, except with the previous sanction of the Government of India, exceed ten years.

[Note.—The term should be calculated from the date on which the loan is completely made.]

6. Without the previous sanction of the Government of India a loan shall not be made at a lower rate of interest than 4 per cent.

7. An application for a loan shall state—

- 1st—the work for which the loan is required and an estimate of the cost of the entire work or of such part of it as it is proposed to meet from loan funds;
- 2nd—the amount which it is proposed to borrow;
- 3rd—the fund on the security of which it is proposed to borrow;
- 4th—the law under which the said fund is levied, received or held;
- 5th—the period for which the loan is required, the number and amount of the instalments, if any, in which it is proposed that the loan shall be taken, the dates proposed for receiving such instalments, and the instalments, if any, in which it is proposed to repay the loan;
- 6th—the rate of interest at which it is proposed to borrow;
- 7th—a detailed account of the revenue and expenditure of the Local Authority for the three last preceding years.

Note.—The receipt side of the account should show only ordinary revenue. Receipts from loans or deposits or the investments of sinking funds should be excluded, as well as items of abnormal character, which should be indicated separately when required. On the expenditure side interest on debt and any payments to a sinking fund should be included, but all expenditure from loan funds and repayment of advances or deposits should be excluded. A full explanation should be given of all important variations in the amounts of revenue and expenditure.

8th—all existing prior charges upon the funds of the Local Authority.

8. The Local Government shall cause such inquiry as it thinks necessary or expedient to be made into the statement contained in the application and into the use and value of the work for which the loan is proposed.

9. If it appears to the Local Government that the loan ought not to be granted, it shall reject the application.

10. If it appears to the Local Government probable that the loan ought to be granted, it shall cause to be published in the local official Gazette, and otherwise, as it deems fit within the local limits of the area subject to the control of the Local Authority, a copy of the application and such particulars in regard to any enquiry made under Rule 8 as it may think necessary.

11 (1) After the expiry of one month from such application, and after calling for any further information which it may require, and considering any objections which may be preferred, the Local Government may either reject the application, or grant the loan if funds are available from the grant placed at its disposal for the purpose: Provided that—

- (i) when the sanction of the Government of India is required under rule 4, 5, or 6, or
- (ii) when the application is made by one of the corporations specified in clause (a) of the proviso to section 8 of the Act, or by the Rangoon Municipality,

the Local Government, if it approves the application, shall not itself proceed to sanction it, but shall refer it for the orders of the Governor-General in Council.

(2) If it is not proposed to take the whole of the loan during the current financial year and if the portion to be taken in future years exceeds one lakh of rupees per annum, the Local Government shall report the proposals to the Government of India.

12. The Local Government shall make such provisions as may seem to be necessary for the proper inspection of all works which are being carried out by means of a loan, and for ascertaining and securing that the loan is duly applied to the work for which it has been made. Every such work and the accounts connected therewith shall be open at all times to the inspection of the Superintending or Executive Engineer in whose division the work is situate and of any person who may be authorized to inspect the accounts of the local authority, and of any other person specially authorized by the Local Government in this behalf.

13. If the Local Government considers that the conditions on which a loan was granted have not been fulfilled, or that the Local Authority has failed to comply with any of the requirements of these rules, it may, at any time, order that no further payments shall be made on account of such loan, and recover the amount advanced, with interest thereon, in the manner mentioned in section 6 of the Act.

14. (1) Interest shall be charged yearly or half-yearly, as the Local Government may determine, on each loan at the rate agreed upon; and shall be reckoned and paid on each instalment from the date on which it is received.

(2) A penal rate of compound interest not less than 4 per cent. per annum shall be payable, at the discretion of the Local Government, upon all overdue instalments of interest or of principal and interest.

15. The Local Authority may, at any time, with the previous consent of the Local Government, repay the whole or any part of a loan in advance of the period fixed by the conditions of the loan.

16. The cost of any enquiry made under Rule 8, of advertisements published under Rule 10, of inspections made under Rule 12, and of any other proceedings by order of the Local Government or the Governor-General in Council under these rules, shall be determined by the Local Government, and shall be paid by the Local Authority.

17. (1) The accounts of every loan shall be kept by the account officer of the province in which it is made.

(2) The Local Authority shall give to the account officer and the Local Government any information which they may require regarding the expenditure of the loan and regarding its funds.

18. An annual statement of all loans granted under the Act, repayments due and made during the year, and balances outstanding at the beginning and end of the year in each province, or under each Local Government shall be prepared by the account officer and submitted to the Government of India through the Local Government, which shall add a report of the progress of the work for which a loan has been made. Such statement shall be published in the local official Gazette.

19. An attachment of any funds under section 6 of the Act shall be made by a notice to the Local Authority prohibiting the collection or management of such funds by the Local Authority, and vesting the administration thereof in such officer as the Local Government may appoint. Such notice shall be published in the local official Gazette and otherwise, as may be directed by the Local Government, within the local limits of the area subject to the control of the Local Authority. The moneys collected or received under such attachment shall be paid into the Government Treasury; and the accounts of money so collected and of the cost of the collection shall be prepared in such form as the Local Government may from time to time direct. A copy of the accounts shall be delivered to the Local Authority and published in the local official Gazette.

No. 8566A.—In exercise of the powers conferred by sections 5 and 7 of the Local Authorities Loan Act, 1879, the Governor-General in Council has made the following rules for the raising of loans by Local Authorities in the open market :—

1. These rules shall come into force on the 1st day of November 1907. On and from that date the rules published with the Notification No. 16, dated the 1st January 1889, as subsequently amended, shall be rescinded, except as regards loans applied for before these rules come into force.

2. In these rules—

(1) "the Act" means the Local Authorities Loan Act, 1879,

(2) "the Local Authority" means the Local Authority applying for permission to raise, or, as the case may be, raising or having raised the loan; and

(3) "Loan" means a loan under the Act.

3. Every loan shall be defined in rupee currency unless the Local Government, with the previous sanction of the Governor-General in Council, directs that any particular loan shall be defined in sterling currency.

4. A loan shall not be raised except for works of public utility—

- (a) within the local limits of the area subject to the control of the Local Authority, or
- (b) for the benefit of the inhabitants within those limits.

5. The Governor-General in Council shall determine, in each case, the period within which the loan shall be repaid.

6. When it is desired to obtain the authorization of the Government to the raising of a loan under section 7 of the Act, a statement shall be submitted to the Local Government showing—

1st—the work for which the loan is required, and an estimate of the cost of the entire work or of such part of it as it is proposed to carry out from loan funds;

2nd—the amount which it is proposed to borrow;

3rd—the fund on the security of which it is proposed to borrow;

4th—the law under which the said fund is levied, received or held;

5th—the dates within which the money is to be raised, and when it is proposed to raise the loan in instalments, the amount of each instalment, the dates within which the first instalment is to be raised, and the years in which it is intended to raise the other instalments;

6th—the rate of interest at which it is proposed to borrow;

7th—the term of years for which the money is to be borrowed, the instalments in which it is to be repaid, or the amount of the sinking fund provided for its repayment, and the rate of interest at which the improvement of such sinking fund is to be calculated;

8th—a detailed account of the revenue and expenditure of the Local Authority for the three last preceding years;

[NOTE.—The receipt side of the account should show only ordinary revenue. Receipts from loans or deposits or the investments of sinking funds should be excluded, as well as items of abnormal character, which should be indicated separately when required. On the expenditure side interest on debt and payments to a sinking fund should be included and all expenditure from loan funds and repayment of advances or deposits should be excluded. A full explanation should be given of all important variations in the amounts of revenue and expenditure.]

9th—all existing prior charges upon the funds of the Local Authority.

7. The Local Government shall cause such enquiry as it thinks necessary or expedient to be made into the statements contained in the application and into the use and value of the work for which the loan is proposed.

8. If it appears to the Local Government that the loan ought not to be raised, it shall reject the application.

9. If it appears to the Local Government probable that the loan ought to be raised, it shall cause to be published in the local official Gazette, and otherwise, as it deems fit, within the local limits of the area subject to the control of the Local Authority, a copy of the application and such particulars in regard to any enquiry made under Rule 7 as it may think necessary.

10. After the expiry of one month from such publication, and after calling for any further information which it may require, and considering any objections which may be preferred, the Local Government may either reject the application or refer it for the orders of the Governor-General in Council.

11. When a loan has been sanctioned by the Governor-General in Council, the Local Authority shall not, without the previous approval of the Government of India, vary the dates within which the raising of the loan, or of the first instalment of it, has been sanctioned. If the loan is raised by instalments, the dates within which each further instalment is to be raised shall be reported for the previous approval of the Government of India before it is put upon the market.

12. The Local Government shall make such provisions as may seem to be necessary for the proper inspection of all works which are being carried out by means of a loan, and for ascertaining and securing that the loan is duly applied to the work for which it has been made. Every such work and the accounts connected therewith shall be open at all times to the inspection of the Superintending or Executive Engineer, in whose division the work is situate, and of any person who may be authorized to inspect the accounts of the Local Authority, and of any other person specially authorized by the Local Government in this behalf.

13. The cost of any enquiry made under Rule 7, of advertisements published under Rule 9, of inspections made under Rule 12, and of any other proceedings by order of the Local Government or the Governor-General in Council under these rules, shall be determined by the Local Government and shall be paid by the Local Authority.

14. If a loan is not repayable by annuities or annual drawings, the Local Authority shall out of its income pay yearly or half-yearly, into a sinking fund, a sum which, accumulating at such rate of compound interest as the Government of India may fix, will be

sufficient to secure the liquidation of the loan within the term fixed for its repayment. The Local Authority shall submit the accounts of its sinking fund to the Accountant-General and shall at once make good from its revenues any amount by which he may certify that the fund falls short of what it ought to contain.

15. The Local Authority shall give to the account officer and the Local Government any information which they may require regarding the expenditure of the loan and regarding its funds.

16. An attachment of any funds under section 6 of the Act shall be made by a notice to the Local Authority prohibiting the collection or management of such funds by the Local Authority, and vesting the administration thereof in such officer as the Local Government may appoint. Such notice shall be published in the local official Gazette, and otherwise, as may be directed by the Local Government, within the local limits of the area subject to the control of the Local Authority. The moneys collected or received under such attachment shall be paid to the lender, and the accounts of moneys so collected, and of the cost of collection, shall be prepared in such form as the Local Government may from time to time direct. A copy of the accounts shall be delivered to the Local Authority and published in the local official Gazette.

II.—Subject to the condition that an officer serving in the Upper Provinces will not be eligible for examination in Bengali, Assamese or Uriya, until he has obtained a certificate in one of the other languages, candidates may present themselves for examination in any of the languages enumerated in rule I. An officer attached to the Upper Provinces, who may have obtained a certificate of high proficiency in Hindustani (Urdu), Hindi or Persian, under the rules of the 2nd October 1861, of the 24th March 1870, of the 2nd January 1880 or the 27th October 1905, will be deemed to have satisfied the foregoing condition.

III.—No officer will be permitted to present himself for examination by two standards of the same language simultaneously, but he may have the

* As an alternative to Bengali: rewards cannot be earned in both languages.

option of competing for the higher examinations in any language without first undergoing any inferior test. A candidate may, however, present himself for examination in more than one language on the same day but he will be required to perform the exercises within the time allotted for one.

IV.—No officer will ordinarily be permitted to appear more than twice as a candidate at any examination; but if a special recommendation be made by the examiners a candidate will be allowed to appear a third time.

V.—No officer will be permitted to earn a reward for passing an examination by the higher standard, high proficiency, or degree of honour standard after the expiration of five, ten and fifteen years, respectively, counted from the date of his first arrival in India.

Officers may be permitted to attend the examinations after the expiration of the periods specified in this rule, but no reward will be granted to them if they pass; and their leave must be limited to such time as may be necessary to enable them to attend the examination, and no extra expense must under any circumstances be caused to the State. In such cases it will be within the competence of local Governments to refuse applications for permission to attend any particular examination, when compliance with such applications would involve inconvenience to the public service.

In the case of military officers in permanent civil or political employ the limit of time specified in this rule within which an officer can earn a reward for passing the higher standard, high proficiency and degree of honour examinations respectively may, for special reasons, be extended by the Government of India on the recommendation of the local Government, Resident or Agent to the Governor General under whose orders the officer is serving.

In its application to gazetted police officers the period of time specified in this rule will be reckoned in the case of officers appointed after an examination held in this country from the date of appointment in India, the date of first arrival in India holding good for officers selected in England.

VI.—Officers who may have passed examinations under the rules of 1861 (cancelled in section VII of the rules of 1870) or of 1870 (cancelled in section I of the rules of 1880) or of 1880 (cancelled in the preamble to the rules of 1905) or of 1905 (cancelled in the preamble to the present rules) will not be eligible to attend corresponding examinations in the same language or languages under these rules.

VII.—Officers who are natives of India are not eligible for rewards in passing in the vernacular of the district in which they were born or educated. The local Government shall determine in each case what languages come within this definition.

VIII.—Examinations will be held quarterly on the first Monday in January, April, July, and October of each year at Calcutta. When the first Monday in the quarter is a gazetted holiday the examination will be held on the following Monday or, if that is also a gazetted holiday, on the next working day thereafter.

NOTE.—The term gazetted holiday should be held to mean:—

- (1) Holidays prescribed or notified under section 25 of the Negotiable Instruments Act, 1881.
- (2) Holidays on which, by Government notification in the Gazette, any public office is ordered to be closed for the transaction of public business without reserve or qualification.

Officers desirous of attending examinations for which they are eligible must apply for leave to do so to the local Government, Resident or Agent to the Governor General at least three months before the date of examination, and a copy of such permission should be forwarded to the Secretary, Board of Examiners, Calcutta; but officers attached immediately to the Government of India must apply for leave to the Home Department, through the department of the Government of India under which they are serving, and such application must be accompanied by a certificate from the Accountant General of the province to which the applicant belongs or in the case of officers of the Political Department of the Government of India from the Accounts Officer under whose audit control the applicant is serving, that he has not exceeded the time of residence mentioned in rule V.

In cases not specially provided for in this section permission to appear at an optional examination prescribed by Government in any of the oriental languages carries with it the grant of joining time (excluding the time allowed for preparation) to and from the place of examination, besides leave for the day or days of examination.

280. (a) A candidate for a reward by the higher standard in Arabic or high proficiency in Arabic or Persian, may be allowed either (i) leave for one month before the examination and, if he passes, for another month after it, or (ii) if he undertakes to spend it in study under professional tuition at a presidency town, the whole period of two months before the examination.

(b) An officer who is a candidate for the degree of honour in Arabic or Persian may be allowed, either leave for two months under clause (a), or if he leaves India for study, leave for four months to Persia for Persian, or for six months to Arabia, Mesopotamia, Egypt, or Syria for Arabic. Officers of the Political Department of the Government of India may be granted this leave even when they are candidates only for the higher standard or high proficiency test in Arabic or Persian.

NOTE.—Leave under clause (a) or (b) is not admissible more than once; nor can such leave be combined.

(c) Privilege leave may not be granted in continuation of the month's leave after examination admissible under clause (a), but otherwise leave under this article may be combined with privilege leave, provided that privilege leave prefixed to leave under clause (b) must be spent in, or in travelling to, one of the countries mentioned in the clause.

And no motion to rescind such resolution shall be considered except upon the recommendation of a Committee, or after notice under Rule 4 (a) and with the consent of a majority of the Commissioners present in meeting and voting.

The question whether a motion is or is not contrary to a resolution of the Corporation is a point of order.

Appointments under section 25 and section 63 to be by ballot.

Explanation:—Any Commissioner present may propose any candidate, and the names of all the candidates proposed and seconded shall first be ascertained. The President shall then ascertain by means of a ballot the votes in favour of each candidate so proposed and seconded, no Commissioner being allowed to vote for more than one candidate at a time. If at a ballot none of the candidates obtain an absolute majority of the votes as aforesaid, the candidate obtaining the least number of votes shall be eliminated and after such elimination a fresh ballot shall be taken. This process of elimination shall be continued until one of the candidates obtains more than half the votes of the Commissioners present and voting. The candidate thus obtaining an absolute majority shall by the President be then declared to be duly elected.

22. Where the question to be decided upon relates to the pay or promotion of a Municipal employee, if a ballot be demanded by at least ten members, the question shall be decided by ballot.

Voting by ballot.

23. Whenever a poll is taken, the names of the members voting for and against the motion or amendment put to vote shall be recorded in the Minutes of the proceedings.

Recording names of voters in cases of poll.

24. Whenever any Commissioner shall move a resolution for the appointment of a Committee of a special nature under section 96 of the Act, and this resolution is duly seconded and carried, it shall be incumbent on the mover—(1) to move that the Committee shall consist of a definite number of Commissioners (any other number may be moved as an amendment); and (2) to draw up a list of as many Commissioners as may be thus fixed for constituting the Committee. On this list being seconded, any other Commissioner may either move the substitution of any one or more names for one or more of those contained in the list, or draw up a different list, and move that it be substituted for the list proposed by the mover of the original resolution.

Manner of appointing Special Committee.

Provided always that if a ballot be demanded by at least five members, the Chairman shall put it to the meeting, whether they wish the election to be by ballot, and if this is carried, the Committee shall be elected by ballot.

25. Upon the consideration of the report of a Committee it shall be the duty of the Chairman or President, or in his absence some member of the Committee, to submit to the Corporation a motion for the confirmation thereof.

Chairman submitting reports of Committees to also submit motion for confirmation.

No. 1295 T.M.—The 7th October 1907.—In exercise of the power conferred upon him by section 569 of the Calcutta Municipal Act, 1899 (Ben. Act III of 1899) the Lieutenant-Governor is pleased to accord his sanction to the rules made by the Corporation of Calcutta, under clause (a) of section 73 of the said Act, fixing the amount and nature of the security to be furnished by any Municipal Officer or servant from whom it may be deemed expedient to require security, in the modified form hereinafter set forth below.

RULES REGARDING THE SECURITY TO BE FURNISHED BY MUNICIPAL OFFICERS AND SERVANTS.

1. Except as in these rules otherwise provided, every officer and servant of the Corporation other than the Treasurer, Collector and License Officer, through whose hands Municipal money passes, shall furnish cash security, which should, as a rule, be 10 per cent. in excess of the maximum amount likely to be in his custody at one time, with a bond in Form A.

In special cases in which the application of this rule would cause hardship, the Chairman may reduce the amount of security as far as he may think necessary, subject to an appeal to the Corporation whose orders shall be final.

2. Store-keepers and stock-takers, whether appointed permanently or temporarily, shall furnish cash security with a bond in Form A, the amount being regulated according to circumstances by the Chairman, subject to the approval of the Corporation.

3. The rule that every officer and servant who handles Municipal money shall give cash security, shall not be enforced in the case of durwans, peons and orderlies; but in future no durwan, peon or orderly shall be appointed, unless he can furnish a security bond (executed by some person of known respectability and solvency), for his good and honest conduct in the following form:—

“I know A. B. of
son of
to be an honest man, and I agree to forfeit Rs. if called upon to do so, should he be
proved to have embezzled, stolen, misappropriated, misapplied or unlawfully disposed of
any money, securities for money, goods or property belonging to or in the possession,
care, charge or custody of the Corporation of Calcutta or paid or entrusted to or in the
possession, care, charge or custody of the said in the course of his employment
as a servant of the Corporation.”

The amount of such bond shall be, in the case of durwans, peons or orderlies drawing a monthly salary of Rs. 10 or more, Rs. 50; and in other cases, Rs. 25.

Native Military pensioners employed as durwans, peons or orderlies are exempted from the operation of this rule.

4. In all cases when an officer or servant is a member of the Provident Fund and has subscribed to the declaration in the form prescribed in the Provident Fund rules, agreeing to be bound by the rules of such Fund, the amount of cash security furnished by him may be reduced by the amount of his contribution to the Fund, and such portion of the cash security actually held may be annually withdrawn as will bring the total reduction up to the amount of the contribution for the time being. The security of an officer or servant who has already been in the service for 20 years or upwards and has contributed to the Pension Fund regularly may be diminished by a sum calculated on his monthly pay multiplied by 25, with the proviso that the security shall in no case be diminished by more than one-half.

5. All officers and servants who have to furnish security in the sum of Rs. 100, upwards, shall give it in the form of Government Promissory Notes, Calcutta Municipal Debentures or Calcutta Port Trust Debentures.

In the case of officers and servants who have to furnish security of less than Rs. 100, the amount of cash deposited by the officer shall remain with the Corporation, by whom no interest shall be allowed: provided that with the sanction of the Chairman the amount so deposited may be placed in the Post Office Savings Bank as a security deposit, the pass book remaining in the custody of the Chairman.

6. If an officer or servant already in the service of the Corporation is unable to furnish the full amount of security due from him in a single payment, he may, at the discretion of the Chairman, be permitted to pay it by monthly instalments of not less than one-fourth of his pay, within a maximum period of five years.

The forms of bond to be used in cases where security is furnished in instalments are given in Forms B and E.

7. Personal security bonds (with sureties as in Form O) for good and honest conduct, in the sum of Rs. 1,500 shall be taken from the Record-keeper, and the sum of Rs. 250 from Accountants, Assistant Record-keepers, Head Clerks, Bill-writers and the Contract Clerk; provided that the amount of the security Bond shall not exceed Rs. 150 in the case of Bill-writers, and any other officers or servants of these classes whose salary does not exceed Rs. 30. The amounts may be reduced, after 20 years' pensionable service as laid down in Rule 4.

Any officer or servant named in this rule may, if he prefers it, deposit security in cash or in Government Promissory Notes, Calcutta Municipal Debentures or Calcutta Port Trust Debentures, with a bond without sureties in Form D for the amount prescribed above in lieu of a bond with sureties. When an officer or servant named in this rule wishes to deposit securities in cash, but is unable to furnish the whole of the security at once, he shall execute a bond in Form C, and shall furnish sureties to the satisfaction of the Chairman until the full security is deposited.

8. When an officer or servant is transferred to another appointment and it becomes necessary to demand a higher amount of security from him owing to the increased responsibilities of the new post, no fresh bond need be executed, but a memorandum (to be signed by the Principal and his Sureties) shall be endorsed on the bond, giving particulars of the additional security and the manner in which it has or will be deposited. It shall also be expressly stipulated that the terms of the bond with regard to the security originally deposited are to be applicable to the additional security. Similar endorsements (to be signed as mentioned above) shall be made when the amount of security is reduced. When any such endorsement is made on a registered bond the memorandum shall also be registered.

Provided that, when any such officer or servant is appointed to act in a higher post for a period of not more than three months, the security already deposited by him whether in the form of cash Government Promissory Notes, Calcutta Municipal Debentures or Port Trust Debentures, or in the form of personal security as required by rule 7, shall generally be deemed to be good and sufficient.

9. Government Promissory Notes or Debentures of the nature aforesaid, or cash lodged as security, shall be returned after the expiration of six months from the date when the officer or servant by whom the security was deposited ceased to be in the service of or employed by the Corporation, unless the Chairman otherwise directs. Security bonds shall ordinarily be cancelled and returned before the expiration of one year from the date, when the officer by whom the bond was granted ceased to be in the service of or employed by the Corporation.

10. A register of securities shall be kept in the following form:—

1	2	3	4	5	6	7	8	9
Serial No.	Name of Officer or Servant.	Designation of Duties.	Amount of Security payable.	Nature of Security furnished.	Value of Security furnished.	Date of Bond.	Date of deposit in safe custody.	REMARKS.
